Re: transfer evaluation

This transfer proposes to change and combine the place of use for these four ground water rights into a large place of use. No well changes, they share the same 2 wells.

Authority to File:

Applicant is the owner of record as far as the SRBA recommendation and submitted an ownership change for the other three rights last fall.

Water Right Validity:

These water right were decreed in the SRBA in 2002/2004 or are recommended in the SRBA Air photos in 2004 show it to be irrigated. Forfeiture is not an issue.

Injury to Other Water Rights:

Inside the ESPA area and in Water District 110. No well changes, no groundwater model analysis is needed. Watermaster will comment. Transfer will be advertised to determine any protests.

Enlargement of Use:

There is no evidence of enlargement of use.

Local Public Interest:

No issues identified.

Beneficial Use / Conservation of Water Resources:

No issue identified.

Review of the application finds there is not clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.
