RE: 98-7859

To whom it may concern:

The undersigned has been appointed as the representative of Mrs. Doreen Williams for purposes of protest of the above numbered application for water right/permit.

In submitting a protest to the above mentioned water right application, Mrs. Williams neglected to enclose the required fee.

Enclosed please find a check in the amount of \$25.00 to be applied to her protest.

Thank you,

John T. Day

Dear Sirs:

Please find enclosed a Notice of Protest, against the Application for Permit # 987859. The diversion of Round Prairie Creek.

I have in my possession the ownership, of Water Rights- #98-4012, with a Priority Date, of June,1,1910. All facts of ownership, titles, maps, and statements for previous generations are within my possession, so if you need further proof, I will be happy to comply.

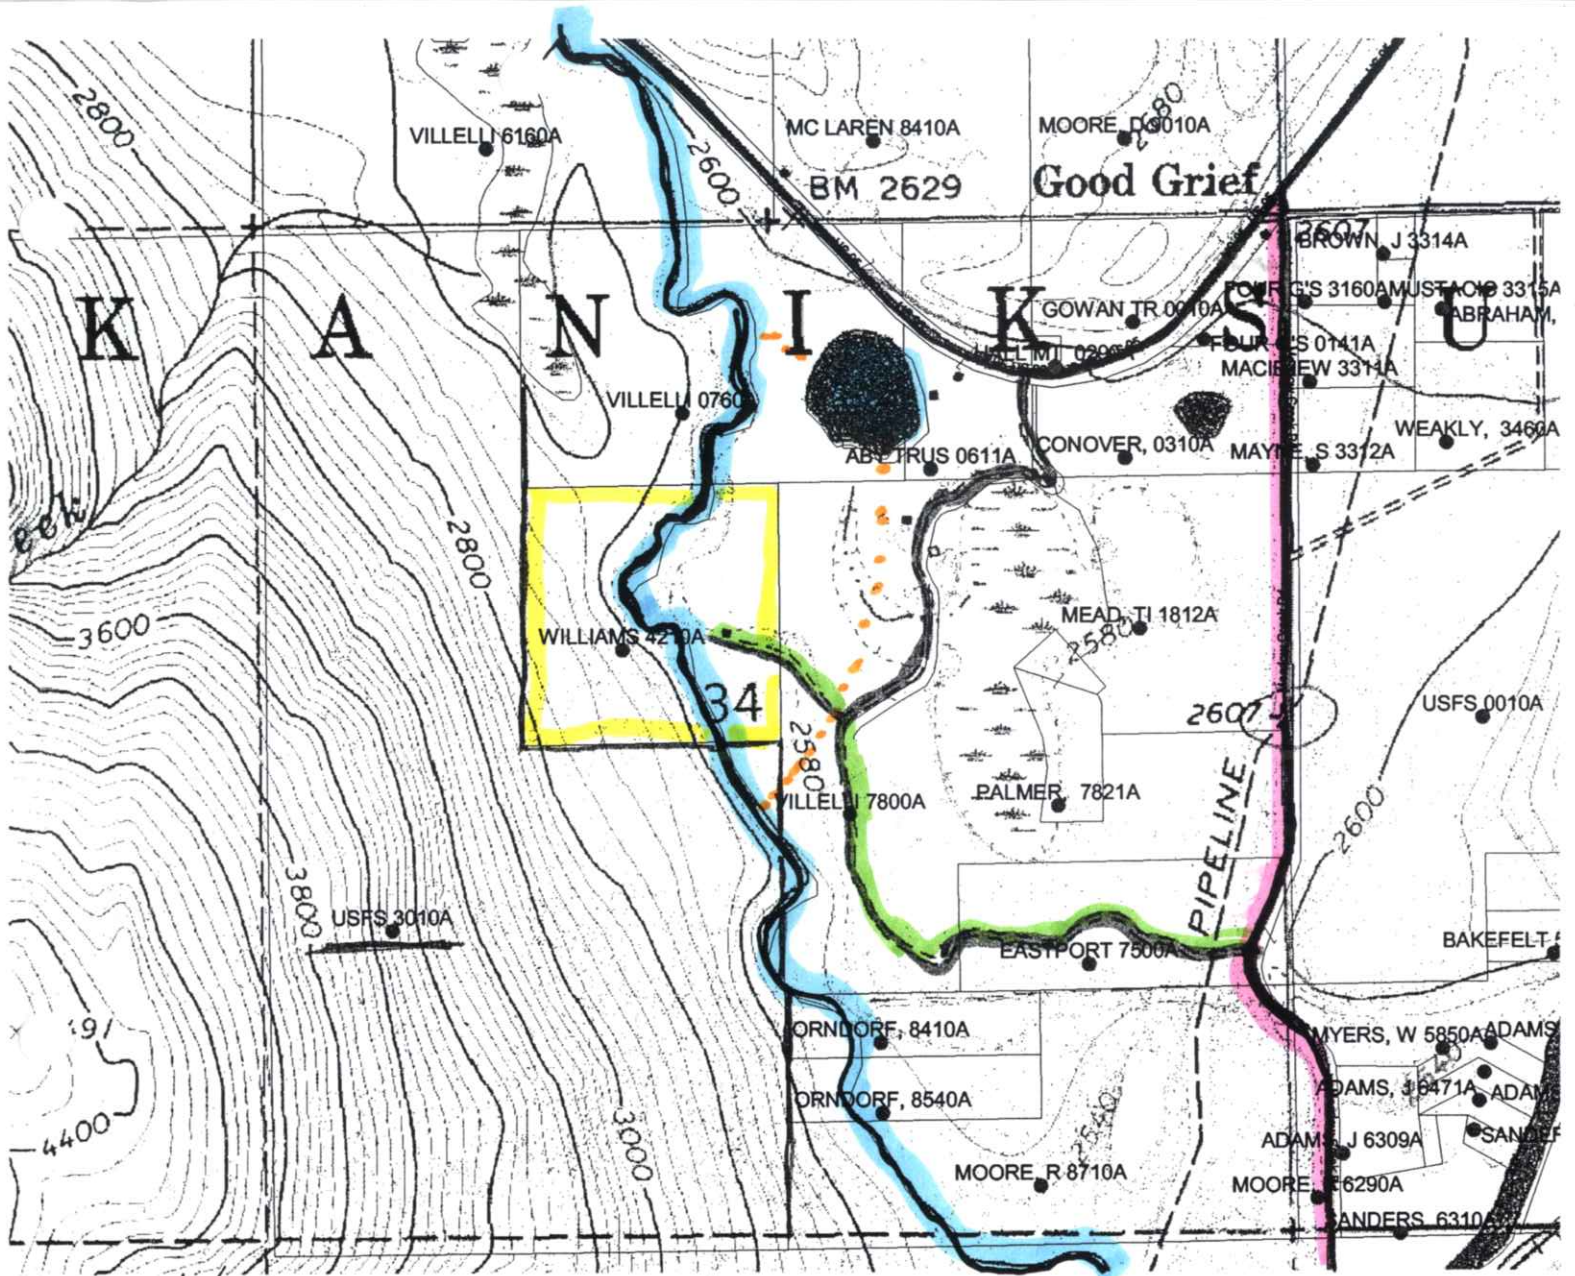

My name and address are listed as protestant, however, I am naming as representative, John Timothy Day. I was in a three car auto accident, July, 21, 2007 and it will be difficult for me to attend Court Hearings, however, I would appreciate copies of all documents, sent to both of us. Also, timely notifications.

Thank you for your understanding in this matter.

Sincerely,

Doreen Ethlyn Williams, Trustee

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
NOTICE OF PROTEST

This form may be used to file a protest with the department under sections 42-108B, 42-203A, 42-203C, 42-211, 42-222 and 42-224, Idaho Code. The department will also accept a timely protest not completed on this form if it contains the same information.

1. Matter being protested: Application For Permit # 987859, in name of: Richard Anthony Villelli & Marie Victoria Villelli, Revocable Trust
2. Name of protestant: Doreen Ethlyn Williams--Trustee, of Doreen Ethlyn Williams Trust/ Water Rights # 98-4012/ Priority Date, 1 June 1910
3. Protestant's Representative for service (If different than protestant):
John Timothy Day
4. Service mailing address: 13638 S.E. Market, Portland, Oregon, 97233 & PO Box 216, Eastport, Idaho, 83826
5. Service telephone no.: 503-255-9411 & 503-473-9321 & 208-267-5759
6. Basis of protest (including statement of facts and law upon which the protest is based)
NOTICE OF PROTEST--DIVERSION OF WATER FROM ROUND PRAIRIE CREEK--Cover Letter with Statement & Laws attached.
7. What would resolve your protest? : The cessation of water diversion from Round Prairie/Little Hell Roarin Creek, it's natural channel and depth, to the historical cleanliness and native beauty of an Idaho high mountain stream. Also the refilling of the proposed alternate water ditch.

I hereby, acknowledge that if I, or my designated representative, fails to appear at any regularly scheduled conference or hearing in the matter of which I have been notified at the address above, the department may issue a notice of proposed default against me in this matter for failure to appear. I also verify that I have served a copy of this protest upon the applicant.

Signed this 30 day of June, 2000.

Protestant Doreen Ethlyn Williams, Trustee

Protestant's Representative

NOTE:

A protestant is required to timely file a protest with the department together with a \$25.00 protest fee for

each application being protested in order for the protestant to be considered a full party by the department.

In addition, the department's Rule of Procedure, IDAPA 37.01.01203, requires a protestant to send a copy of a protest to the applicant.

INSTRUCTIONS

1. The matter being protested must be clearly identified. A typical matter is identified by the application

number such as "Application for Permit No. 987859 in the name of R.A. Vilelli & M.V. Vilelli" or

"Application for Transfer No. in the name of ."

2. Show the name of the protestant. Only one (1) protestant may be shown per protest form. If this protest form Doreen Ethlyn Williams Trust, Trustee is signed by more than one person, the hearing officer will consider the first signer as the official protestant

and the representative for service of documents.

3. If the protestant is represented by an attorney or other authorized representative, show the representative's

name. The department then will serve documents on the representative and upon the protestant if

specifically requested.

4. Show the address where the department is to serve the documents. This should be the address of the

authorized representative unless the protestant does not designate a representative.

5. Show the telephone number of the authorized representative unless the protestant does not designate a

service representative.

6. Specifically describe the nature of the protest.

7. Describe the relief being sought by the protestant.

#6--NATURE OF PROTEST: NOTICE OF PROTEST-----

AGAINST DIVERSION OF WATER FROM ROUND PRAIRIE/LITTLE HELL ROARIN CREEK,
which flows through, SECTION 34, TWP 65 NORTH, RANGE 2 EAST, OF BOISE MERIDIAN,
BOUNDARY COUNTY, IDAHO.

LAW: STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
IDAHO CODE FOR PROPERTY-----IDAHO STATUTES

TITLE 42--IRRIGATION & DRAINAGE
WATER RIGHTS & RECLAMATION

#42-3801 LEGISLATIVE INTENT--STREAM CHANNEL ALTERATION

"The legislature of the state of Idaho hereby declares that the public health, safety and welfare requires that the stream channels of the state and their environments be protected against alteration for the protection of fish and wildlife habitat, aquatic life recreation, aesthetic beauty, and water quality. No alterations of any stream channel shall hereafter be made unless approval therefore has been given as provided in this act."

I own Section 34, TWP 65 North, Range2 East, of Bussard Creek Land Survey. It was deeded to me, by my mother, Romola Doreen (Leavey) Dodge, 26 September, 1996, Deed # 183155, Boundary County Courthouse.

The Round Prairie/Little Hell Roarin Creek runs, in it's natural state and channel through my property, as per attached map (1). This property has been family owned since 1945. No changes have been made to the water course other than maintenance and in 2004, the professional building of a high grade Service Access Bridge. My Forest Manager, Andy Eckberg, of Riley creek Logging, Moyie Springs, Idaho, was in charge of quality select cutting, with professional aesthetic oversight, by BLM's Forest Advisor Jerry Garten, of Bonners Ferry, Idaho. Enclosed pictures of bridge and creek area (2).

If the proposed permit is allowed, the water will go into Wright Lake, on the Villelli property and channel through a new dredged lake, then empty into a deep manmade ditch, through a culvert, son, Joe Villelli, placed under my access road, in 2003. The water will continue through the ditch and on into Round Prairie Creek, thus bypassing, Section 34, TWP 65N, Range 2E. The Williams property will have no water, and the creek with it's natural aquatic life and fish habitat will dry up. My family will no longer be able to enjoy the natural beauty and valuable water source deeded down to us since 1905, when our original log cabin was built, on the property.

#42-3803 CHAPTER 38-- ALTERATION OF CANNELS OF STREAMS---PERMIT & PLANS
REQUIRED

"No person shall engage in any project or activity which will alter a stream channel without first applying to and receiving a permit therefore from the director. Such application shall be submitted not less than sixty (60) days prior to the intended date of commencement of construction of such stream channel alteration."

Please see attached statement by, Fred J. Wilmoth, of Portland, Oregon, written July 11, 2003. This is in regard to the changes we found, on our trip to the locality (3). I have a US Mail Registry Receipt, dated June 27, 2003, when I questioned Richard Villelli with the fact, that the bridge built by my uncle, Clarence J. Leavey, had been taken out of the access road and replaced by a deep ditch, culvert, and fish trap. The road and bridge were protected by a Court Judgement, Case # 5768, my mother, Romola D. Dodge, Plaintiff vs. Herbert A. Mead and Emagene Mead, Defendants, Boundary County, Idaho. This was dated May 16, 1978, and a copy sent to her by Jim Lyons, Attorney at Law. It states there is an easement on the 'Sandpit Road', and the road should not be disturbed or altered. The Mead family sold the property to the Villelli family, with the judgement in place (4).

Enclosed is Mr Villelli's answer (5). The overflow culvert mentioned was over 200 feet from the road and since that area was always meadow, in summer, and a slight marsh, in spring, there had never been any threat, of the access road washing out. Please, see attached pictures taken by my son, Larry R. Williams Jr, and processed May 23, 2004, showing the ditch and black square fish trap. At that time, the original earthen dam had not been breached (6).

Also, you will find enclosed, a copy of a letter I sent, May 22, 2007, to the Ruby Copper Project Supervisor, regarding my concerns about the road, lowered water levels, and poor water quality, in Round Prairie Creek. A copy was also sent to, The Corp of Engineers and Idaho State Water Resources (7).

#42-3809 PERSONS ENGAGED IN STREAM ALTERATION

"Any stream channel alteration engaged in by any person without approval having been obtained therefore as prescribed in this act is hereby declared to be a public nuisance and shall be subject to proceedings for immediate abatement."

In the early spring of 2007, we were informed that the Villelli family was dredging out the meadow area, purchased from Tim Mead, where previously, horses had grazed. The meadow flooded after a major manmade opening was made, in the dike, that had been in place before 1920. This completed the formation of a new lake. When the Williams family arrived, in the Addie/Good Grief area, in June 2007, we were able to observe for the first time the extreme changes that had taken place. At the site of the culvert, on under our access road, the ditch had been deepened, and on the far side, it had been extended toward Round Prairie Creek another 75 to 100 feet. In July, the ditch had been deepened and was almost to the creek, undoubtedly awaiting completion, upon the approval, of the diversion permit. Please see The statement of Brian Lundquist (8).

It is clear to all involved parties, that this major construction and Round Prairie/Little Hell Roarin Creek water channel diversion, was an on going plan and intent, started in 2003.

Soren Eublyn Williams, Trustee

IN THE DISTRICT COURT OF THE FIRST JUDICIAL DISTRICT OF THE
STATE OF IDAHO, IN AND FOR THE COUNTY OF BOUNDARY

ROMOLA DODGE,

Plaintiff,

Case No. 5768

V8.

JUDGMENT

HERBERT A. MEAD and EMAGENE MEAD, husband and wife,

Defendants.

Upon the stipulation of the parties herein, the pleadings, records, and file:

IT IS HEREBY ORDERED, ADJUDGED AND DECREED that the plaintiffs have a right of way easement for ingress and egress over the existing roadway commonly known as the Sandpitt Road, and more particularly described as:

See attached Exhibit "A"

IT IS FURTHER ORDERED, ADJUDGED AND DECREED that the defendants are hereby enjoined from interfering with the plaintiff's use and enjoyment of said easement. Specifically, defendants shall not leave vehicles parked in or on said easement in such a way so as to restrict passage thereon, nor shall defendants leave fallen trees, slash, or any other material upon the roadway of said easement, or in any manner whatsoever block, interfere with, or restrict the plaintiff's use and enjoyment of said easement, nor shall defendants disturb or alter the roadway of the above described easement.

LAWYER
102 SUPERIOR
P.O. BOX "C"
SANDPOINT, IDAHO 83864
(208) 263-3115

TERRY L. JENSEN

The defendants, Meads, shall not be required to clear wind-fallen trees, fill washouts, or correct other acts of nature affecting the road.

IT IS FURTHER ORDERED, ADJUDGED AND DECREED that the use of the road is restricted to its historical width and use, that is, to provide access to a one family residence. The gate at the eastern terminus of the road, where the road joins the county road, shall be kept closed at all times, but either party shall have the right to install a cattle guard at said gate. No fencing along the road shall be allowed as such would split the property of defendant. The road shall be maintained by the parties as provided under the common law.

DATED this ____ day of April, 1978.

District Judge

I hereby certify that a true and correct copy hereof was mailed, postage prepaid, this 26th day of April, 1978, to:

Statement:

On 5 June 2003, I accompanied, Doreen E. Williams, to her property in Addie, Idaho. We were traveling there to see if the winter slash burning and stump removal had been completed by Joe Vilelli, as he had contracted. Also, to change the locks at the property.

As we proceeded on the William's access road, we came to a change in the road, where a small wood bridge had been, for over forty-five years. It had been taken out and a ditch for water, had been dozed and a culvert replacing the bridge. This change would cause the water in the creek, on Mrs Williams property, to be diverted out of it's normal channel. She had not been notified, by Vilelli Enterprises, of any change to the road, crossing their land, as guaranteed, by her deeded Grandfather Rights, to the road.

I had visited the property, in the summer, of 2001. It had been lush, with native forest. Select cutting was contracted to neighbor, Joe Vilelli, for diseased or damaged trees, however, we found one area cut that had not been authorized, and large old growth timber was laying scattered on the ground. Three huge piles of slash were piled and not burned.

Mrs Williams was extremely distressed at what she found. Her contract, with, Joe Vilelli, and Louisiana Pacific, had ended in early March. When she found and confronted Joe Vilelli, he told her that if she locked the gate on him, he would dig out the culvert and the access road, so she could not drive thru to her property.

Due to the amount of stress and shock, of what we found, and the confrontation, Doreen and I returned to Portland, Oregon, where she was placed under the care of Dr Sheree Stephens, MD, Her son, Larry R. Williams, is taking over management of the Idaho property, with Forest Manager, Andy Eckberg, of Louisiana Pacific.

Sincerely,

Fred J. Wilmoth

GENERAL DESCRIPTION

A RIGHT of WAY, all within the central portion of the $E\frac{1}{2}$ of Section 34, T65N-R3E, Boise Meridian, established by continuous use by ROD HOGLAND, former owner of the LEAVEY property, from 1931 to 1945 and by CLARENCE J. LEAVEY and ROMOLA D. (LEAVEY) DODGE, brother and sister, from 1945 to present date, 1973.

Starting point is at the junction of the OLD SANDPIT road and the EASTPORT-MEADOWCREEK hyway, approximately four and one half ($4\frac{1}{2}$) miles south of the Canadian International Boundary at EASTPORT, IDAHO.

Point of beginning can be established on the attached BONNERS FERRY RANGER DISTRICT (West Half) map. It is located at the symbol for a mine and with the notation - Gravel Pit. The right of way extends generally west one third ($1/3$) of a mile along the OLD SANDPIT road, thence north one third ($1/3$) of a mile crossing the OLD SANDPIT and thence west approximately two hundred (200) feet to the East boundary of the LEAVEY property.

GROUND SURVEY DESCRIPTION

MORE PARTICULARLY DESCRIBED as: Beginning at a point on the West edge of the EASTPORT-MEADOWCREEK hyway, 106 feet North of the South boundary of the $NE\frac{1}{4}$ of the $SE\frac{1}{4}$ of Section 34 and 217 feet West of the East boundary of the $NE\frac{1}{4}$ of the $SE\frac{1}{4}$ of Section 34, T65N-R3E, BOISE MERIDIAN.

Thence proceeding at a bearing of 274 degrees for 143 feet to a crossing of the INTERNATIONAL NATURAL GAS LINE from CANADA.

Thence on the same bearing for 60.5 feet to the West edge of the GAS LINE right of way.

Thence 289 degrees for 82.5 ft.
Thence 304 degrees for 66 ft.
Thence 284 degrees for 137.5 ft.
Thence 305 degrees for 220 ft.
Thence 254 degrees for 181.5 ft.
Thence 229 degrees for 220 ft.
Thence 299 degrees for 126.5 ft.
Thence 334 degrees for 187 ft.
Thence 269 degrees for 143 ft.
Thence 215 degrees for 181.5 ft.
Thence 223 degrees for 225.5 ft.
Thence 294 degrees for 187 ft.
Thence 332 degrees for 305 ft.
Thence 310 degrees for 181.5 ft.
Thence 4 degrees for 192.5 ft.
Thence 351 degrees for 137.5 ft. Where right of way enters sandpit.
Thence 0 degrees for 418 ft.
Thence 317 degrees for 111 ft. Where it crosses bridge over dry drainage ditch. Bridge constructed by CLARENCE LEAVEY in the year 1958.

Thence on the same bearing, 76 ft.

Thence 344 degrees for 368.5 ft.

Thence 259 degrees for 192.5 ft. Where it ends at a point 528.5 ft. North of SE corner of $SE\frac{1}{4}$ of the $NW\frac{1}{4}$ of Sec 34, T65N-R3E as determined by official BOUNDARY COUNTY surveyor in 1948 at the request of CLARENCE J. LEAVEY. Said corner is the SE corner of LEAVEY property and the center of Section 34.

Doreen:

I got a message from my office you called about the stream.

Between the beaver raising up Round Prairie and the muskrats burrowing under the levy at our lake we have been flooding and or running out all the water. I spent several thousand dollars building a new dam to stop all the water running into the other ponds to the east and south east. I have also build an overflow culvert to keep your road to your cabin from washing out. Now at least if the beaver builds up the stream it will not flood out our house. Also the level should stabilize with less water flowing out of the stream than in previous years. Before the new dam it was going to the lake on the east of Tim's property and then flowing down to in front of the Brown's old house.

If you have any questions call me at 208-267-7625 or my office 208-255-4500

PROJECT NAME: RUBY COPPER
Ranotta McNair, Forest Supervisor
Bonners Ferry Ranger District
Bonners Ferry, Idaho

22 March 2007

SECTION 34 T65N R2E
Doreen Ethlyn Williams Trust

Regarding your letter about the Ruby Copper Project, which will make changes and closures of roads. We enter our property through the Old Sand Pit Road, which the family has held Grandfather Rights on since 1945, and family use of since the early 1930's. Your agency has also had open access to use this road, and to cross our property in case of any fire threat on the mountain. I do have concerns that this road will remain open, since it is the only road into the property.

A second concern is the level and flow of the water in Round Prairie Creek, which flows through my property and adjoining Forest Service land. In late summer a healthy flowing stream is, after the last several years, down to a muddy waterbed. In the 1940's, 50's, and 60's the water in August was approximately 4 feet deep, clear, and fast running. During those years the family was able to use it for drinking water. The trout ran 10 to 12 inches long, however now, only small minnows are seen.

Due to construction in the area, the Corp of Engineers was asked to evaluate the situation. Mary Reinhart, was assigned and aerial photos taken, however, I do not believe deep channel surveys were taken or the problems resolved. Since Round Prairie Creek runs through Forest Service land adjoining mine it is affected by a slow flow which in turn is causing a great deal of brush growth and lily pads, environmentally changing it more into swamp conditions, like those now on the creek above me as it is seen from the major highway going to Canada. That land was once a beautiful meadow where my grandparents cut hay in the 1930's. For several years neighbors on Round Prairie Creek have tried to bring to the attention, of officials, for the State of Idaho, the fact that changes in Wright Lake are diverting the flow of the creek and protection of its natural channel.

I note in your letter a question on the wildlife population. Although not full time residents, the property on section 34 is posted against hunters. Approximately 5 years ago, a total of eight cougar were killed on the mountain, by hunters, for trophy. The news of that event was deeply disturbing. We are a family who love the land and the wildlife of the mountains, and wish it to remain pristine for other generations.

If you could address yourself to these problems, it would be greatly appreciated.

Doreen E Williams, Trustee

cc: Mary Reinhart, Corp of Engineers
cc: Greg Taylor, Idaho, Water Resources

Doreen E Williams
Trustee

Subject: Stream diversion of water from Little Hell Roaring Creek. i.e. (Round Prairie Creek)

Addie Idaho: Property adjacent to that owned by Mrs. Doreen Williams. Controlled by revocable trust of Mr. Richard A Vilely and Marie V Vilely

Starting in approximately 2004, I noticed that the earthen dam that contained Wright Lake adjacent to said property had been breached and the property owner had attempted to form a larger confinement by creating a dam approximately 175 yards or more due south of the original dam. This increased the lake size by about 300% or better at the time.

At about the same time I noticed a trench had been cut from the new impoundment across the access road granted to Mrs. Williams, it had a culvert and fish trap installed to prevent any fish from escaping the new impoundment.

In 2005 I was told that the new dam was leaking and that the owner was attempting to stop the leak in order to stabilize the lake level. The level of the new lake was substantially higher than that of the old lake in my opinion. There was a bulldozer on site but saw no work being done to prevent the leakage.

In 2006 I noticed the lake new lake had been drained and the old Wright Lake was back to its previous size. I was told the new lake had raised the water level so a height that is was undermining the foundation of the owners expansive residence, to the point that the foundation was settling to a new lower level, and would need to be shored up to prevent further damage.

In 2007, I noticed that the trench that crossed the access road had been lengthened to a point that it appeared to cross through U.S. Forest land as a flood return to Little Hell Roaring Creek. The owner had also divided the lake into several small impoundments rather than one large impoundment, the property owner also had dredged the lake to obtain a depth that would allow for fish survival without raising the level and affecting the foundation of his house again.

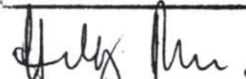

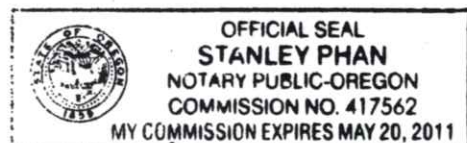

Questions I have are the following: Diversion of stream bed from its natural course. Diversion of water from a property with grandfathered water rights. Loss of stream habitat for native fish and aquatic life, including native Bull Trout that inhabit the stream, and are federally protected.

I, Brian Lundquist of Portland Oregon have been coming to this property as a guest of the Williams family for 10 years.
