Re: Change of Ownership for Water Right 72-24E

Dear Water Right Holder:

The Department acknowledges receipt of correspondence changing ownership of the above referenced water right to you. The Department has modified its records to reflect the change in ownership and has enclosed a computer-generated report for your records.

In research I found two water rights is believe are part of your property. Water right 72-24E has a combine use condition with water right 72-4231E and water right 72-10031 is the domestic well located on the property. In order for our records to be changed, however, it is necessary for you to complete the enclosed Notice of Change of Water Right Ownership form. Please complete it per the instructions (pages 3 and 4), include the required information listed under item 2, enclose a fee of \$50 and return everything to the Department. Once this packet is received, the changes will be made to our records, and you will be sent confirmation that the change has been completed.

Please note that as of July 1, 1996, water right owners are required to report any change of water right ownership and any change of mailing address of the owner of a water right to the department. Notice of the change must be provided to the department within 120 days of the change. Change reporting forms are available from any office of the department.

Please feel free to contact this office if you have any questions regarding this matter.

Sincerely,
