

MEMORANDUM

Date: October 16, 2007
To: Water Right File 75-14467
From: scox
Re: Comment/Analysis

The potential to reduce the quantity of water under existing water rights: There should be no potential to reduce the quantity of water with this application. Applicant does not seek to divert any more water for this application, due to there is sufficient water under water right numbers 75-19G and 75-21, but this ground is not covered under those water rights.

The sufficiency of the water supply for the proposed appropriation: The quantity of water needed is already covered under other water rights.

The good faith nature of the application: Project is already completed.

The adequacy of the financial resources of the applicant: Project is already completed.

The local public interest in the public water resource: Comment letters from Idaho Fish & Game has no concerns. Id DEQ has no opposition to the granting of this right. They have two comments of notes to be considered, #1 They suggest intake be screened according to the local Fish & Game specification and #2 If the water from Chipps Creek is for drilling purposes, that they contact Carlin Fiethamel to ensure the system is properly monitored.

The conservation of water resources in Idaho: This is a beneficial use, this is for .02 cfs.

Impacts to the economy of the local area or watershed: None anticipated at this time.
