Transfer # 69002

**BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE STATE OF IDAHO**

**IN THE MATTER OF TRANSFER)
NO. 69002 IN THE NAME OF)
TRACY L. BAXTER OR)
SHARON L. BAXTER)**

**ORDER DENYING PETITION
FOR RECONSIDERATION**

This matter having come before the Department of Water Resources (Department) as a petition to reconsider the issuance of a water right transfer approval, the Department makes the following Findings of Fact, Conclusions of Law, and Order:

FINDINGS OF FACT

1. On September 3, 2002, the Department issued a preliminary order approving Transfer No. 69002 authorizing Tracy L. Baxter or Sharon L. Baxter (right holders) to change the place of use and point of diversion for a portion of Water Right Nos. 11-946 and 11-947. The transfer approval was amended and reissued as a preliminary order (transfer) on September 18, 2002. The transfer approval split Water Right No. 11-946 into parts; the part in the name of the right holders was numbered 11-7456. The transfer also split Water Right No. 11-947 into parts; the part in the name of the right holders was numbered 11-7458.
2. The transfer approval authorized irrigation under Water Right No. 11-7458 for the period beginning on April 15 and ending on September 30 each year.
3. On October 3, 2002, the Department received a petition for reconsideration (petition) from the right holders. The petition indicated that water has historically been diverted beyond September 30 under Water Right No. 11-7458 (11-947) and asked to have the transfer approval changed to remove the cut-off date for the irrigation season.
4. The rights holders did not request a hearing in connection with the preliminary order.
5. On October 15, 2002, the Department granted the petition and retained jurisdiction of the matter to review and consider the information submitted by the right holders.
6. On June 26, 2003, the Department received a Notice of Change in Water Right Ownership indicating that ownership of Water Right Nos. 11-7456 and 11-7458 had changed to North Hills Ltd. and UR Ranches LLC.
7. The District Court of the Fifth Judicial District of the State of Idaho for Bear Lake County issued a decree of water rights on March 7, 1924 in the case *Preston-Montpelier Irrigation Company vs. Dingle Irrigation Company, et al* (Terrell decree). The Terrell decree designated

rights as either a “meadow right” or “agricultural right.” The Terrell decree indicated that “...the duty of water shall be fixed and determined at one and one-half (1 ½) miners inches per acre of water from April 15th to July 1st each year, and at one (1) miners inch per acre from July 1st to September 30th of each year for the lands designated as meadow lands, and for the lands designated as agricultural lands, it is agreed that the duty shall be one miners inch per acre through the irrigation season...” The Terrell decree included Water Right No. 11-947 and designated the right as an agricultural right.

8. The Department has historically interpreted the irrigation season for agricultural rights listed in the Terrell decree to be April 15 to September 30 based on the overall season listed for meadow rights and based on other court decrees for water rights in the Bear River basin. This interpretation ensures consistency for water distribution purposes in the Bear River Basin.

CONCLUSIONS OF LAW

1. Section 67-5243(3), *Idaho Code*, provides in pertinent part as follows:

Unless otherwise provided by statute or rule, any party may file a motion for reconsideration of a recommended order or a preliminary order within fourteen (14) days of the issuance of that order. The presiding officer shall render a written order disposing of the petition.

2. The rights holder’s petition for reconsideration was filed timely.
3. Section 42-222(5), *Idaho Code*, provides in pertinent part as follows:

Any person or persons feeling themselves aggrieved by the determination of the department of water resources in approving or rejecting an application to change the point of diversion, place, period of use or nature of use of water under an established right...may request a hearing pursuant to section 42-1701A(3), *Idaho Code*, for the purpose of contesting the action of the director...

4. Section 42-1701A(3), *Idaho Code*, provides in pertinent part as follows:

...The person shall file with the director, within fifteen (15) days after receipt of written notice of the action issued by the director, or receipt of actual notice, a written petition stating the grounds for contesting the action by the director and requesting a hearing. The director shall give such notice of the petition as is necessary to provide other affected persons an opportunity to participate in the proceeding...

5. The rights holders did not request a hearing in connection with the preliminary order.
6. Rule 730.02a of the Rules of Procedure of the Department provides in pertinent part that the

Department will "... dispose of the petition for reconsideration within twenty-one (21) days of its receipt or the petition will be considered denied by operation of law."

7. The Department disposed of the petition by order and retained jurisdiction of the matter to review and consider the information submitted by the right holders.
8. Section 42-222(1), *Idaho Code*, provides in pertinent part as follows:

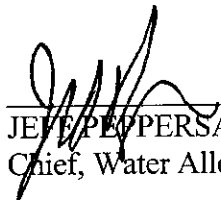

The director of the department of water resources shall examine all the evidence and available information and shall approve the change in whole, or in part, or upon conditions, provided no other water rights are injured thereby, the change does not constitute an enlargement in use of the original right, the change is consistent with the conservation of water resources within the state of Idaho and is in the local public interest as defined in section 42-202B, *Idaho Code*, the change will not adversely affect the local economy of the watershed or local area within which the source of water for the proposed use originates, ...

9. The irrigation season cut-off date is necessary to prevent injury or adverse effects to other rights from the Bear River.
10. The right holders have not provided suitable justification for the Department to amend the transfer approval by removing the cut-off date for the irrigation season.
11. The Department should deny the petition for reconsideration of the preliminary order pursuant to Section 67-5243(3), *Idaho Code*.

ORDER

IT IS HEREBY ORDERED that the petition for reconsideration of the preliminary order approving Transfer No. 69002 is **DENIED**.

CONDITIONS OF APPROVAL

1. The right holder shall accomplish the change authorized by this transfer within one (1) year of the date of this approval.
2. Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
3. Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 11.
4. Prior to diversion of water under this approval, the right holder shall provide a means of measurement and lockable controlling works for all authorized points of diversion. The means of measurement and controlling works must be suitable for control of the diversions and acceptable to the watermaster.
5. Rights 11-7460, 11-7462, 11-7467 and 11-7469 when combined shall not exceed a total annual maximum diversion volume of 461.3 af at the field headgate, and the irrigation of 131.8 acres.
6. The total instantaneous diversion of water from all points of diversion under Rights 11-7460, 11-7462, 11-7467 and 11-7469 shall not exceed 3.58 cfs, nor total combined annual volume of 461.3 af.
7. This right is limited to the irrigation of 49 acres within the place of use described above in a single irrigation season.
8. The period of use for the irrigation described in this approval may be extended to an ending date of 10/31 provided that beneficial use of the water can be shown and other elements of the right are not exceeded. The use of water after 9/30 is subordinate to all water rights having no subordinated early or late irrigation use and a priority date earlier than the date of this approval.

Transfer # 69003

**BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE STATE OF IDAHO**

**IN THE MATTER OF TRANSFER)
NO. 69003 IN THE NAME OF)
MARRINER JENSEN OR)
EILEEN JENSEN)**

**ORDER DENYING PETITION
FOR RECONSIDERATION**

This matter having come before the Department of Water Resources (Department) as a petition to reconsider the issuance of a water right transfer approval, the Department makes the following Findings of Fact, Conclusions of Law, and Order:

FINDINGS OF FACT

1. On September 3, 2002, the Department issued a preliminary order approving Transfer No. 69003 authorizing Marriner or Eileen Jensen (right holders) to change the place of use and point of diversion for a portion of Water Right Nos. 11-939, 11-940, 11-946, and 11-947. The transfer approval was amended and reissued as a preliminary order (transfer) on September 18, 2002. The transfer approval split the water rights into parts; the parts in the name of the right holders were numbered 11-7466 (11-939), 11-7468 (11-940), 11-7457 (11-946) and 11-7459 (11-947).
2. The transfer approval authorized irrigation under Water Right Nos. 11-7468 and 11-7459 for the period beginning on April 15 and ending on September 30 each year.
3. On October 2, 2002, the Department received a petition for reconsideration (petition) from the right holders. The petition indicated that water has historically been diverted beyond September 30 under Water Right Nos. 11-7468 (11-940) and 11-7459 (11-947) and asked to have the transfer approval changed to show the period for irrigation ending on October 31 each year. The petition included statements from several individuals indicating historical use of water on meadows beyond September 30.
4. The right holders did not request a hearing in connection with the preliminary order.
5. On October 15, 2002, the Department granted the petition and retained jurisdiction of the matter to review and consider the information submitted by the right holders.
6. The District Court of the Fifth Judicial District of the State of Idaho for Bear Lake County issued a decree of water rights on March 7, 1924 in the case *Preston-Montpelier Irrigation Company vs. Dingle Irrigation Company, et al* (Terrell decree). The Terrell decree designated rights as either a "meadow right" or "agricultural right." The Terrell decree indicated that "...the duty of water shall be fixed and determined at one and one-half (1 ½) miners inches per

acre of water from April 15th to July 1st each year, and at one (1) miners inch per acre from July 1st to September 30th of each year for the lands designated as meadow lands, and for the lands designated as agricultural lands, it is agreed that the duty shall be one miners inch per acre through the irrigation season..." The Terrell decree included Water Right Nos. 11-940 and 11-947 and designated the rights as agricultural rights.

7. The Department has historically interpreted the irrigation season for agricultural rights listed in the Terrell decree to be April 15 to September 30 based on the overall season listed for meadow rights and based on other court decrees for water rights in the Bear River basin. This interpretation ensures consistency for water distribution purposes in the Bear River Basin.

CONCLUSIONS OF LAW

1. Section 67-5243(3), *Idaho Code*, provides in pertinent part as follows:

Unless otherwise provided by statute or rule, any party may file a motion for reconsideration of a recommended order or a preliminary order within fourteen (14) days of the issuance of that order. The presiding officer shall render a written order disposing of the petition.

2. The right holder's petition for reconsideration was filed timely.

3. Section 42-222(5), *Idaho Code*, provides in pertinent part as follows:

Any person or persons feeling themselves aggrieved by the determination of the department of water resources in approving or rejecting an application to change point of diversion, place, period of use or nature of use of water under an established right...may request a hearing pursuant to section 42-1701A(3), *Idaho code*, for the purpose of contesting the action of the director...

4. Section 42-1701A(3), *Idaho Code*, provides in pertinent part as follows:

...The person shall file with the director, within fifteen (15) days after receipt of written notice of the action issued by the director, or receipt of actual notice, a written petition stating the grounds for contesting the action by the director and requesting a hearing. The director shall give such notice of the petition as is necessary to provide other affected persons an opportunity to participate in the proceeding...

5. The right holders did not request a hearing in connection with the preliminary order.
6. Rule 730.02a of the Rules of Procedure of the Department provides in pertinent part that the Department will "... dispose of the petition for reconsideration within twenty-one (21) days of its receipt or the petition will be considered denied by operation of law."

7. The Department disposed of the petition by order and retained jurisdiction of the matter to review and consider the information submitted by the right holders.

8. Section 42-222(1), *Idaho Code*, provides in pertinent part as follows:

The director of the department of water resources shall examine all the evidence and available information and shall approve the change in whole, or in part, or upon conditions, provided no other water rights are injured thereby, the change does not constitute an enlargement in use of the original right, the change is consistent with the conservation of water resources within the state of Idaho and is in the local public interest as defined in section 42-202B, *Idaho Code*, the change will not adversely affect the local economy of the watershed or local area within which the source of water for the proposed use originates, ...

9. The irrigation season cut-off date is necessary to prevent injury or adverse effects to other rights from the Bear River.

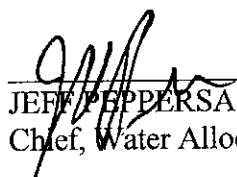

10. The right holders have not provided suitable justification for the Department to amend the transfer approval to show the period for irrigation ending on October 31 each year.

11. The Department should deny the petition for reconsideration of the preliminary order pursuant to Section 67-5243(3), *Idaho Code*.

ORDER

IT IS HEREBY ORDERED that the petition for reconsideration of the preliminary order approving Transfer No. 69003 is **DENIED**.

Dated this 24th day of October, 2007.

WATER RIGHT NO. 11-7466
As Modified by Transfer No. 69003

CONDITIONS OF APPROVAL

5. Prior to diversion of water under this approval, the right holder shall provide a means of measurement and lockable controlling works for all authorized points of diversion. The means of measurement and controlling works must be suitable for control of the diversions and acceptable to the watermaster.
6. The total instantaneous diversion of water from all points of diversion under Rights 11-7457, 11-7459, 11-7466 and 11-7468 shall not exceed 9.04 cfs.
7. Rights 11-7457, 11-7459, 11-7466 and 11-7468 when combined shall not exceed a total annual maximum diversion volume of 963.2 af at the field headgate, and the irrigation of 275.2 acres.
8. The period of use for the irrigation described in this approval may be extended to an ending date of 10/31 provided that beneficial use of the water can be shown and other elements of the right are not exceeded. The use of water after 9/30 is subordinate to all water rights having no subordinated early or late irrigation use and a priority date earlier than the date of this approval.
9. This right when combined with all other rights shall provide no more than 3.5 afa per acre at the field headgate for irrigation of the lands above.

This water right is subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
