ACTION OF THE DEPARTMENT OF WATER RESOURCES

This Permit is Approved Date 12-5-05

If approved, this permit authorizes the construction or modification of a well subject to the following conditions. **READ CAREFULLY!**

GENERAL CONDITIONS:

1. This drilling permit is valid for two (2) months from the above approval date for the start of construction and is valid for one(1) year from the approval date for completion of the well unless an extension has been granted.
2. This permit does not constitute an approval of the District Health Department or the Idaho Department of Health and Welfare, which may be required before construction of the well. All wells must be drilled a minimum distance of 100 feet from a drain field. Domestic and Public Water Supply wells must be drilled a minimum of 50 feet and 100 feet respectively from a septic tank.
3. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
4. Approval of this drilling permit does not authorize trespass on the land of another party.
5. This permit does not constitute other local, county, state or federal approvals, which may be required for construction of a well.
6. This drilling permit does not represent a right to divert and use the water of the State of Idaho.
7. If a bottom hole temperature of 85 or greater is encountered, well construction shall cease and the well driller and the well owner shall contact the Department immediately.
8. Idaho Code, S 55-2201 - 55-2210 requires the applicant and/or his contractors to contact "Digline" (DigLine is a one-call center for utility notification) not less than 2 working days prior to the start of any excavation for this project. The "DigLine" Number for your area is 1-800-342-1585.
9. Please be advised that this drilling permit should be considered and treated as a preliminary permit. If you are in disagreement with this preliminary permit you have fourteen (14) days of the service date of this permit to petition the Department for reconsideration pursuant to Section 67-5243, Idaho Code.
10. The well tag for the drilling permit/start card shall be securely and permanently attached to the well casing through welding or by the use of four closed end domed stainless steel pop rivets. The tag attachment will be done at the time of completion of the well, and prior to removing the drill rig from the drill site.

SPECIFIC CONDITIONS:

This well shall not be used for irrigation Exceeding 1/2 acre without a valid water right that authorizes additional use from this well.

**REQUEST FOR ISSUANCE OF DOMESTIC DRILLING PERMIT
WITH CASING SIZE EXCEEDING SIX (6) INCHES**

RON WALSH / Land Associates, Applicant, requests the issuance of Drilling Permit for domestic (exempt) purposes as defined in Idaho Code Section 42-111, which authorizes construction of a well with casing size exceeding six (6) inches in diameter. The Idaho Code states, in part:

"the phrase 'domestic purposes' or 'domestic uses' means:

- A. The use of water for homes, organization camps, public campgrounds, livestock and for any other purpose in connection therewith, including irrigation of up to one-half (1/2) acre of land, if the total use is not in excess of thirteen thousand (13,000) gallons per day, or
- B. Any other uses, if the total use does not exceed a diversion rate of four onehundredths (0.04) cubic feet per second and a diversion volume of twenty-five hundred (2,500) gallons per day.

For purposes of these sections, domestic purposes or domestic uses shall not include water for multiple ownership subdivisions, mobile home parks, commercial or business establishments, unless the use meets the diversion rate and volume limitations set forth in subsection B. of this section."

The request is made to drill a 8 inch diameter well for the following reason(s):

- ☐ A larger diameter is required because of expected limited productivity of formations expected to be encountered, or difficulties in drilling that have been experienced.
- ☐ The pumping equipment available requires a larger well diameter and will be valved to prevent excessive diversion.
- ☒ Other Well to supply domestic and irrigation for a 10-acre portion of 63-3168A appurtenant to land owned by Land Associates. See also Transfer Application.

Who owns the property at the point of diversion? Land Associates, LLC

Who owns the land to be irrigated or place of use? Land Associates, LLC

If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing in behalf of the well owner _____

I acknowledge that use of this well for any other purpose than domestic use as defined under Idaho Code Section 42-111 requires approval by the Idaho Department of Water Resources and that failure to comply is a violation of Sections 42-351 and 43-352, Idaho Code.
