Attention: Steve Lester and Rob Whitney

Subject: Drilling Permit Application, 6" Casing Exemption, and Transfer Application

Dear Mr. Whitney and Mr. Lester,

Enclosed on behalf of our client, Land Associates LLC, is a drilling permit application, a 6-inch casing exemption request, and a transfer application. The applicant has acquired a 10-acre portion of water right 63-3168A, identified as Lot 1 in Block 1 of Spiker Subdivision in the Dry Creek area, and as evidenced by the enclosed documents. The applicant did not acquire any part of the domestic portion of this right. A Notice in Change in Water Right Ownership was submitted to your office in early November.

The transfer application proposes a new point of diversion to be constructed on the applicant's property so the applicant can use his well to supply his portion of the right. The drilling permit proposes an 8-inch domestic well. These applications are signed by Ron Walsh, authorized agent for Land Associates LLC.

The applicant seeks to drill in December under a domestic exemption. Upon approval of the transfer application, the well will supply both irrigation water under 63-3168A, and domestic water, and therefore an 8-inch well is proposed.

Enclosed is a check for \$300 to cover transfer application (\$100) and drilling permit (\$75 domestic, \$125 upgrade to irrigation) fees.

Please let me know if you have any questions, or if anything further is required.

Sincerely,

Scott N. King, P.E.
Senior Project Engineer
