Allen,

I'll leave it to Jack to comment on this application.

Nick.

Subject: Temp transfer application for Yacomella TC-72-06

Gents:

I've not been able to contact you both but have gone ahead and approved this application since I'm going to be out of the office the next few days and understand these folks need the water.

I believe this application solves the matter that Jack and I discussed briefly on the phone a few days ago.

The approval and application is scanned and attached below. Please look it over and provide comment if you wish me to modify or amend the order when I get back in the office on Friday.

Allen
