Re: license review

While reviewing this file for licensing, I found the following worth noting:
This property and the permit have changed ownership since the field exam was done.

The maximum flow was established by a theoretical calculation based on system operation parameters. It was confirmed by Mr. Jacot, who was permit holder at that time, while the examiner was still onsite.

Neither the POD nor the POU shapes had been created prior to my review. I created them based on the field exam notes and Kootenai County taxlot information.
