Re: license review

Keith Franklin, from IDWR northern region, had reviewed the field exam and made data entry corrections. Keith had also created POD and POU shapes. I reduced his taxlot-sized POU shape to a 1-acre sized shape.

I verified that the property is not in a groundwater management area.
I found documentation that a domestic well had been drilled on this property in 1985 (Permit ID: 752227). That well is probably the POD for this water right.
