Re: Permit Review

WD-170

No protests, IDF&G did suggest the wells be drilled near the southern property boundary to minimize effects on Challis Creek. Spoke to applicant 10/12/07 and she is aware of the requirement and understands it will appear as a condition on the permit.

No overlaps

Applicant indicated if they hit hot water would like to put it to use. 10/12/07 I notified the applicant that this would require a separate permit that indicates heating as a purpose.

Wild and Scenic conditions apply

Recommend for approval as suggested by the region.
