Re: Water Right Application No.75-14467 (Idaho Arrowhead)

Dear Lyle,

Idaho Department of Fish and Game staff has reviewed the application from Idaho Arrowhead Water District for 0.02 cfs of surface water from Chipps Creek near Salmon City for domestic use. The request is to add four additional homes to existing water rights 75-19G and 75-21 for 0.02 cfs. Since this application is for domestic use and is not requesting water additional to current rights, it should not negatively impact fish or aquatic resources and we have no concerns regarding permit issuance.

We appreciate the opportunity to review this application and provide comments.

Sincerely,

James R. Lukens
Regional Supervisor
