RE: Application for Permit No. 75-14467

Dear Ms. Cox:

We are in receipt of your letter of July 9, 2007, regarding all of the extra information required in connection with the filing of applications in Salmon and Clearwater River drainages. However, this application does not really seek to divert any more water from Chipps Creek because there is sufficient water under the existing right to provide the necessary water for inside water use for the extra four homes. We used the figure 0.02 cfs as the total quantity to be appropriated because we were advised by Department personnel that that is the smallest number that can be placed on an application. However, there is no contemplation of any additional diversion of water in connection with this application. If you can think of any possible additional information that would be of assistance, please let us know.

Yours very truly,

Kent W. Foster
