RE: DEQ comments on Water Rights Application 75-14467

Dear Mr. Kramer:

The Idaho Department of Environmental Quality ("Department") reviewed your water rights application and any of our existing water quality information near your proposed project site identified in Application 75-14467.

The Department has no opposition to the granting of this right. We do have two comments of notes for your consideration:

The Department suggests your intake be screened according to local Fish and Game specifications; and
If this water from this right will be used as drinking water, please contact Carlin Fiesthamel, of this office at 208.528.2650 to ensure your system is properly monitored and maintained as required by Idaho Drinking Water Safety laws.

We have no other comments at this time. Additionally, the Department believes this letter is sufficient to allow the Department of Water Resources to complete their review of your water rights application. Thank you for the opportunity to review your application.

Please do not hesitate to contact me at 208.528.2650 for any additional information we may be able to provide.

Sincerely,

A handwritten signature in black ink, appearing to read "Troy Saffle".
