

MEMORANDUM

Date: September 27, 2007
To: Water Right File 96-9055
From: medl
Re: license review

While reviewing this file for licensing, I found the following worth noting:

Neither the POD nor the POU shapes had been created prior to my review. I created them based on the field exam notes and map and the Bonner County taxlot boundaries.

Although water district 96D is inactive at the time of this review, the field examiner found a lockable breaker box in the barn which satisfies the permitting condition for control of the distribution system.
