Department of Water Resources

Permit To Appropriate Water

NO. 86-07371

Priority: December 17, 1999

Maximum Diversion Rate:

35.00 CFS

This is to certify, that US DEPT OF ENERGY

BONNEVILLE POWER ADMIN EWN 4

PO BOX 3621

PORTLAND OR 97208

has applied for a permit to appropriate water from:

CLEARWATER RIVER

tributary of SNAKE RIVER

and a permit is APPROVED for development of water as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
FISH PROPAGATION	01/01 to 12/31	35.00 CFS	
FISH PROP. STORAGE	01/01 to 12/31		2.9 AF
DIVERSION TO STORAGE	01/01 to 12/31	35.00 CFS	
	Totals	35.00 CFS	

LOCATION OF POINT(S) OF DIVERSION:

SWSW , Sec. 25, Township 37N, Range 03W
NEZ PERCE County

PLACE OF USE: FISH PROPAGATION

TWN RGE SEC

37N 03W 25

NWSW

SWSW

CONDITIONS OF APPROVAL AND REMARKS

1. Proof of application of water to beneficial use shall be submitted on or before April 1, 2005.
2. Subject to all prior water rights.
3. Project construction shall commence within one year from the date of permit issuance and shall proceed diligently to completion unless it can be shown to the satisfaction of the Director of the Department of Water Resources that delays were due to circumstances over which permit holder had no control.
4. The issuance of this right does not grant any right-of-way or easement across the land of another.
5. The right holder shall provide the Department, upon request, information showing volume changes per hour necessary to maintain an adequate environment for the fish propagation facility. Volume changes per hour shall be based upon actual fish production.
6. Use of water under this approval shall comply with applicable water quality standards of the Division of Environmental Quality of the Idaho Department of Health and Welfare.

MICROFILMED

APR 27 2003

State of Idaho
Department of Water Resources

Permit To Appropriate Water

NO. 86-07371

CONDITIONS OF APPROVAL AND REMARKS

7. After specific notification by the department, the right holder shall install a suitable measuring device or shall enter into an agreement with the department to determine the amount of water diverted from power records and shall annually report the information to the department.
8. Fish propagation is for Clearwater River sub-basin chinook salmon restoration.
9. The right holder shall not divert more than one-half the rate of flow in the Clearwater River, as measured at the point of diversion, under this right.

This permit is issued pursuant to the provisions of Section 42-204, Idaho Code.
Witness the signature of the Director, affixed at Boise, this

27th day of March, 2000.

RECEIVED

FEB 16 2000

To appropriate the public waters of the State of Idaho

1. Name of water user Bonneville Power Administration Phone (503) 230-5557Mailing address P.O. Box 3621, EWN-4 Portland, OR 972082. Source of water supply Clearwater River which is a tributary of Snake River3. Location of point of diversion is Township 37N Range 3W Sec. 25 in the SW 1/4,
SW 1/4, Govt. Lot 1/4 B.M. Nez Perce County

additional points of diversion if any: _____

4. Water will be used for the following purposes:

Amount 35.0 for Fish Propagation purposes from Jan. 1 to Dec. 31 (both dates inclusive)
(cfs or acre-feet per annum)Amount 2.93 for Storage for Fish Propagation purposes from Jan. 1 to Dec. 31 (both dates inclusive)
(cfs or acre-feet per annum)Amount 35.0 for Diversion to Storage for Fish Prop. purposes from Jan. 1 to Dec. 31 (both dates inclusive)
(cfs or acre-feet per annum)Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)5. Total quantity to be appropriated is (a) 35.0 and/or (b) 2.93 2.90
cubic feet per second acre feet per annum

6. Proposed diverting works:

a. Describe type and size of devices used to divert water from the source Submerged screened intake structure.PUMP & PIPELINE.b. Height of storage dam _____ feet, active reservoir capacity _____ acre-feet; total
reservoir capacity _____ acre-feet

c. Proposed well diameter is _____ inches; proposed depth of well is _____ feet

d. Is ground water with a temperature of greater than 85° F being sought? No

e. If well is already drilled, when? _____; Drilling firm _____

Well was drilled for (well owner) _____; Drilling Permit No. _____

7. Time required for completion of works and application of water to proposed beneficial use is 5 years (minimum 1 year)

8. Description of proposed uses (if irrigation only, go to item 9)

a. Hydropower; show total feet of head and proposed capacity in KW. _____

b. Stockwatering; list number and kind of livestock. _____

c. Municipal; show name of municipality. _____

d. Domestic; show number of households. _____

e. Other; describe fully. Fish propagation for Clearwater River Subbasin chinook salmon restoration.

MICROFILMED

Additional information needed for fish propagation application for permit:

Site: Allotment 1705

- 1) Construction plan to include sizes and number of ponds, total proposed facility volume: Attached Drawings: Phase I and II Site Plan.
- 2) Proof of "possessory interest" of land at place of use: Cooperative project between BPA and Nez Perce Tribe. BPA is the funding Agency for the project.
- 3) No assignment and/or diminished quality of water quality: FishPro, Inc. in contact with DEQ, Lewiston to address this requirement.
- 4) A statement of financial resources of the corporation, association, firm or person making the application and the means by which the funds necessary to construct the proposed works are to be provided.

The Bonneville Power Administration (BPA) is a power marketing agency within the United States Department of Energy. The Pacific Northwest Power Planning and Conservation Act, P.L. 96-501 ("Act") directs BPA to protect, mitigate, and enhance fish and wildlife affected by the development and operation of federal hydroelectric projects of the Columbia River and its tributaries, in a manner consistent with the purposes of the Act, the program adopted by the Pacific Northwest Electric Power and Conservation Planning Council ("Council") under subsection 4(h) of the Act, and other environmental laws. BPA has the authority pursuant to the Northwest Power Act, 16 U.S.C., 838i(b), or the Bonneville Project Act, 16 U.S.C., 839b(h), 839 f(a), the Federal Columbia River Transmission System Act, 16 U.S.C. 838i(b), or the Bonneville Project Act, 16 U.S.C. 832a(c)-(f), to assist in the acquisition and transfer of real property interests. BPA as a federal agency is self-insured.

- 5) A detailed estimate of construction costs, to include estimated costs of each major component of the construction plan: Attached Opinion of Probable Construction Costs – Summary.
- 6) Approval or design agreement of the facility by Idaho Dept. of Environmental Quality showing all state and federal water quality standards have been properly addressed.

BPA and the Nez Perce Tribe will apply for coverage under the Idaho General NPDES permit for Aquaculture and Fish Production Facilities in Idaho. FishPro, Inc. in contact with EPA and IDEQ, Lewiston to address this requirement.

- 7) Are there any existing facilities upstream of diversion point or downstream of discharge point? No.

MICROSOFT
SEP 22 2003

A) Type of water used by existing facility.

- a) Surface with fish cultured upstream.
- b) Surface with no fish cultures upstream.
- c) Spring with fish cultures upstream.
- d) Spring with no fish cultured upstream.

No existing facility.

B) Average percent of existing facility's water to be used by the proposed facility.

- a) Less than 10%
- b) 10% to less than 25%
- c) 25% to less than 50%
- d) 50% to less than 75%
- e) 75% or more

No existing facility.

C) Distance between existing facility intake and proposed facility discharge.

- a) 1.0 mile or more
- b) 0.50 mile to less than 1.0 mile
- c) 0.25 mile to less than 0.5 mile
- d) 0.10 mile to less than 0.25 mile
- e) less than 0.10 mile

No existing facility

D) Change in elevation between discharge of new facility and the intake of the existing facility.

- a) 50 feet or more
- b) More than 20 feet but less than 50 feet
- c) More than 10 feet but less than 20 feet
- d) More than 5 feet but less than 10 feet
- e) Less than 5 feet

No existing facility

E) Anticipated temperature change in new facility.

- ☒ a) less than 1 degree F.
- b) 2 degrees F.
- c) 3 degrees F.
- d) 4 degrees F.
- e) 5 degrees F.

F) Existing facility consideration

- a) Raises fish seasonally and proposed facility is a year around facility.
- b) Hatches eggs.
- c) Is a certified disease free facility

No existing facility

G) Proposed new facility

- ☒ a) Spring or well source with no fish facility above.

Well and surface water, no facility immediately upstream.

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 86-07371

Dear Permit Holder:

The Department of Water Resources (IDWR) has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a preliminary order issued by IDWR pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by IDWR unless a party petitions for reconsideration or files an exception and/or brief as described in the enclosed information sheet.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed.

The Department will send you a "Proof Due Notice" approximately 60 days prior to the above referenced date requesting you to file either a Proof of Beneficial Use form or a Request for Extension of Time form.

Please be advised that water quality is subject to regulations of the Idaho Department of Health and Welfare. We suggest that you check with them before starting construction.

Please note that a separate stream channel alteration permit must be obtained from the IDWR prior to any activity in the stream channel other than construction or maintenance of the diversion structure for your water right(s). Applications for stream channel alteration permits must be filed at least sixty days prior to the commencement of work in the stream.

MICROFILMED

SEP 22 2003

Also, please note that water right owners are required to report any change of water right ownership and/or change of mailing address to the department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the department or visit the department's homepage on the Internet to obtain the proper reporting form.

If you have any questions, please call me at 208-327-7946.

Sincerely,

A handwritten signature in black ink, appearing to read "Shelley Keen". The signature is fluid and cursive, with the first name "Shelley" and last name "Keen" clearly distinguishable.

Responding to Preliminary Orders Issued by the Idaho Department of Water Resources

The Idaho Department of Water Resources (Department) issues water right permits, licenses, and transfers as preliminary orders pursuant to section 67-5243, Idaho Code. A preliminary order can and will become a final order without further action of the department unless a party petitions for reconsideration or files an exception and/or brief as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of the order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from a preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, a preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to a preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

ORAL ARGUMENT

If the Department grants a petition to review a preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

MICRON 1122

Page 12 2 2003

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with a preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of, or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

DEPARTMENT OF WATER RESOURCES

Re: Application for Permit to appropriate the public waters of the State of Idaho:
Response to Idaho Department of Water Resources February 17, 2000 letter
requesting additional information for the following Applications; 85-07659, 86-07371,
86-07372 and 85-07660.

Dear Mr. Keen,

Bonneville Power Administration (BPA) is providing the attached information as per your requested. It is BPA's understanding that Mr. Greg Servheen of Idaho Fish and Game (IDFG) has reviewed this information and has contacted you to verify that IDFG has approved the processing of the water right applications you are currently holding for the Nez Perce Tribal Hatchery Project.

The water right application for Lapwai Creek, Application #85-07659, will need to be modified to reflect the change to the amount requested to be diverted for fish propagation uses. Due to the flow pattern of Lapwai Creek the diversion amount should be changed to the following:

<u>Period</u>	<u>Amount (cfs)</u>
Jan 1 – July 14	5.1
July 15 – Sept 30	2.6*
Oct 1 – Dec 31	5.1

* Not to exceed 50% of the flow of Lapwai Creek

The remaining water right applications: 86-07371, 86-07372, 85-07664, 84-07303, 84-07302, 82-07205, 82-07204 and 85-07660 will not require modification.

Thank you for your efforts in processing these applications.

Sincerely,

Marian Wolcott
Realty Specialist

Additional Information for the Bonneville Power Administration Water Right
Applications for the Nez Perce Tribal Hatchery Program

It has been requested by IDWR to provide additional information concerning the following water right applications: 85-07659 (Location: North Lapwai Valley, Water Source: Lapwai Creek), 86-07371 (Location: Allotment 1705, Water Source: Clearwater River), 86-07372 (Location: Allotment 1705, Water Source: wells) and 85-07660 (Location: Luke's Gulch, Water Source: South Fork Clearwater River). Mr. Shelley Walter Keen has requested information for justification of the water volumes requested for these hatchery sites. To assist Mr. Keen the following description of the proposed facilities operational and rearing techniques are provided.

The Project will use innovative rearing techniques that have not been used as standard methods by other hatchery programs in the Columbia River Basin. Fish rearing containers, rearing densities and broodstock management will be different from those conventionally used in most facilities. The incorporation of Natural Rearing Enhancement System developed by National Marine Fisheries Service (NATURES) will direct designs and provide an environment that simulates natural conditions. The NATURES concept includes holding and rearing fish at low densities thereby requiring more pond volume and increased water flow. Required flow for all life stages will be calculated to maintain a dissolved oxygen level of 7ppm exiting the holding and rearing units. Conventional hatcheries typically target an exit dissolved oxygen level of 5ppm. This higher dissolved oxygen level will require more water flow through the facilities, but will benefit the fish and meet the beneficial use for cold water biota (exceeding 6ppm at all times) in the receiving waters.

The incorporation of these unique rearing methods require more water to produce a pound of fish than a conventional conservation hatchery and considerable more than a commercial hatchery. The rearing densities for fingerlings to smolts are approximately one-third that of a conventional conservation hatchery. The benefit from the use of these techniques will be the production of juvenile salmonids that are better suited to survive and reestablish themselves in the natural environment.

MICHAEL J. KEEN

Marian,
I have attached 4 items for the response to IDWR as per the Feb. 17, 2000 letter.

- 1) draft letter for your use
Attachments to letter:
2) narrative attachment describing unique facility operations to NPTH project, as requested from discussions with Mr. Keen, IDWR
3) table on water use/diversion info as requested in the IDWR letter
4) table on flow info for Lapwai Creek as requested in the IDWR letter

The last 3 items have been provided to IDFG for review.

If you have any questions please give me a call.

Thanks,
Patty Michak
Senior Fisheries Biologist

Dear Shelley,

We have reviewed the proposals for water rights being applied for by the Bonneville Power Administration for Nez Perce Tribe hatchery operations. Upon review, we also conferred with the Nez Perce Tribe hatcheries program on some of the requests. The Tribe and our Department agree that some of the following adjustments are appropriate for instream flow protection.

The request for 10.2 cfs from Lapwai Creek (85-07659) will be modified to show 2 seasons of withdrawal and corresponding withdrawal rates. This includes a reduction of the diversion request during low flows from July 15 to September 30 of 2.6 cfs. No more than 5.1 cfs will be withdrawn during any other portion of the year and no more than 50% of the stream flow may be diverted at any time.

It is our understanding that each of the above water rights will also specify that no more than 50% of the streams filed on will be diverted during anytime of the year. While we recognize that flows will likely be measured at all their facilities, we also suggest including a stream flow monitoring requirement as part of the water right permit.

Thank you for your consideration. Please contact me if you have any questions.

Sincerely,

Cal Groen
Regional Supervisor

RE: Response from Nez Perce Fisheries

On February 25, 2000, I spoke on the phone with Grant Walker of Nez Perce Tribal Fisheries (208-843-7320, ext. 2439) about my letter to BPA regarding the water right applications listed above. Mr. Walker told me that BPA or their consultant, Fish Pro, will respond with a letter proposing lower flow rates for some of the projects. I told Mr. Walker that I will give the Idaho Dept. of Fish and Game a few days to comment on the letter once I receive it. Also, Mr. Walker was not aware of a meeting between the tribe and IDF&G, so he could not comment on that part of my letter.

3/13 I spoke with Gregg Sherwin of IDF + G [(208) 799-5010] about these applications. He said he's received some alterations to the applications suggested by Grant Walker. He was surprised I've not received anything yet. ~~He~~ I told Gregg that I am expecting some information from Patty Michalek of Fish Pro also. I asked Gregg to comment in writing, and he said he would. He'd like IDWR to condition the permits so that divisions do not exceed 50% of streamflow. ~~He~~ I told Gregg I'd make sure he gets a copy of whatever Patty Michalek ad/or BPA submit to me.

S.W. Keen MICHAEL, M.D.
SEP 22 2000

3/16 Patty Michalek of Fish Pro called today to tell me she has sent additional information to BPA to be sent to IDWR concerning these applications.

RE: Water Right Applications 85-07659, 86-07371, 86-07372, 85-07664, 84-07303, 84-07302, 82-07205, 82-07204 and 85-07660

Sent by fax with original to follow by mail

Dear Applicant:

I have been reviewing nine water right applications you submitted for fish propagation on various streams within the Clearwater River basin. None of the applications I am reviewing includes any information about the sufficiency of the water supply or any information justifying the diversion rate being requested. For most of your applications, I do not think it is necessary for you to submit additional information, but more information is required to support a few of your applications.

On Application 85-07659 you have asked to appropriate 10.2 cfs from Lapwai Creek. According to U. S. Geological Survey data dating from 1975 to 1998, the flow in Lapwai Creek about two miles above your proposed diversion averaged only 7.57 cfs in August and only 10.0 cfs in September. There are no significant tributaries to Lapwai Creek between the USGS measuring station in T36N, R4W, S35, and your proposed point of diversion. Further review of the data indicates that in August there is only a 25% chance that flows of 10.0 cfs will be met or exceeded, and in September Lapwai Creek will flow 10.0 cfs less than 50% of the time. The Department of Water Resources is concerned that the flow in Lapwai Creek may not be sufficient to meet your requirements if 10.2 cfs is necessary during August and September. In addition, I have learned that the Idaho Dept. of Fish and Game is concerned that diverting virtually the entire flow of Lapwai Creek in August and September could have detrimental affects on other fish species, including the remaining steelhead population.

Idaho's Water Appropriation Rules (IDAPA 37.03.08) authorize IDWR to request additional information when necessary to support an application for a new water right. To address the concerns stated above, within 30 days please submit information pursuant to Water Appropriation Rules 40.05.d.i. and 40.05.d.ii. for Application 85-07659. In addition, within 30 days please submit information pursuant to Water Appropriation Rule 40.05.d.i. for Applications 86-07371,

MICROFILMED

Bonneville Power Administration

Page 2

86-07372, and 85-07660, each of which requests a diversion rate in excess of 5.0 cfs. I have enclosed a copy of the rules for you.

Also, I understand that Idaho Dept. of Fish and Game representatives have arranged to meet next week with representatives of the Nez Perce Tribe to discuss these and other concerns related to the projects proposed in your water right applications. In case you wish to change your applications after the meeting, I will hold all of your applications until I hear from you about the outcome of the discussion.

If you have any questions, please contact me at 208-327-7946.

Sincerely,

A handwritten signature in black ink, appearing to read "Shelley Keen". The signature is fluid and cursive, with the first name "Shelley" and last name "Keen" clearly distinguishable.

(7-1-93)

iii. Information shall be submitted concerning any design, construction, or operation techniques which will be employed to eliminate or reduce the impact on other water rights. (7-1-93)

d. Information relative to sufficiency of water supply, Section 42-203A(5)(b), Idaho Code, shall be submitted as follows: (7-1-93)

i. Information shall be submitted on the water requirements of the proposed project, including, but not limited to, the required diversion rate during the peak use period and the average use period, the volume to be diverted per year, the period of year that water is required, and the volume of water that will be consumptively used per year. (7-1-93)

ii. Information shall be submitted on the quantity of water available from the source applied for, including, but not limited to, information concerning flow rates for surface water sources available during periods of peak and average project water demand, information concerning the properties of the aquifers that water is to be taken from for groundwater sources, and information on other sources of supply that may be used to supplement the applied for water source. (7-1-93)

e. Information relative to good faith, delay, or speculative purposes of the applicant, Section 42-203A(5)(c), Idaho Code, shall be submitted as follows: (7-1-93)

i. The applicant shall submit copies of deeds, leases, easements or applications for rights-of-way from federal or state agencies documenting a possessory interest in the lands necessary for all project facilities and the place of use or if such interest can be obtained by eminent domain proceedings the applicant must show that appropriate actions are being taken to obtain the interest. Applicants for hydropower uses shall also submit information required to demonstrate compliance with Sections 42-205 and 42-206, Idaho Code. (7-1-93)

ii. The applicant shall submit copies of applications for other needed permits, licenses and approvals, and must keep the department apprised of the status of the applications and any subsequent approvals or denials. (7-1-93)

f. Information Relative to Financial Resources, Section 42-203A(5)(d), Idaho Code, shall be submitted as follows: (7-1-93)

i. The applicant shall submit a current financial statement certified to show the accuracy of the information contained therein, or a financial commitment letter along with the financial statement of the lender or other evidence to show that it is reasonably probable that financing will be available to appropriate the water and apply it to the beneficial use proposed. (7-1-93)

ii. The applicant shall submit plans and specifications along with estimated construction costs for the project works. The plans shall be definite enough to allow for determination of project impacts and implications. (7-1-93)

g. Information Relative to Conflict with the Local Public Interest, Section 42-203A(5)(e), Idaho Code, shall be submitted as follows: The applicant shall seek comment and shall submit all letters of comment on the effects of the construction and operation of the proposed project from the governing body of the city and/or county and tribal reservation within which the point of diversion and place of use are located, the Idaho Department of Fish and Game, the Idaho Department of Health and Welfare, Division of Environment, and any irrigation district or canal company within which the proposed project is located and from other entities as determined by the director. (7-1-93)

h. The following information Relative to the Public Interest Criteria of Section 42-203C(2), Idaho Code, shall be submitted by an applicant seeking reallocation of trust water for a project which the director determines will reduce the flow of the Snake River by more than two (2) acre-feet per day. For filings proposing irrigation as a purpose of use, the additional information is required if more than two hundred (200) acres will be irrigated. The director may request any or all of the following information for any filing seeking the reallocation of trust water. (7-1-93)

CLEARWATER RIVER BASIN

13342450 LAPWAI CREEK NEAR LAPWAI, ID

LOCATION.--Lat 46°25'36", long 116°48'15", in NW¼NE¼NW¼ sec.35, T.36 N., R.4 W., Nez Perce County, Hydrologic Unit 17050306, on right bank, 30 ft upstream from county bridge, 0.7 mi downstream from Tom Beall Creek, 1.6 mi north of Lapwai, 1.6 mi south of Spalding, and at mile 1.9.

DRAINAGE AREA.--235 mi², approximately.

WATER-DISCHARGE RECORDS

PERIOD OF RECORD.--October 1974 to current year.

GAGE.--Water-stage recorder. Datum of gage is 864.64 ft above sea level.

REMARKS.--No estimated daily discharges. Records good. Station equipment includes satellite telemetry. Diversions above station for irrigation of about 1,500 acres.

EXTREMES FOR PERIOD OF RECORD.--Maximum discharge, 5,010 ft³/s Feb. 9, 1996, gage height, 9.70 ft, from rating curve extended above 1,500 ft³/s; maximum gage height, 10.22 ft, Feb. 23, 1986; minimum, 0.71 ft³/s Dec. 21, 1990, gage height, 2.39 ft, result of freezeup.

EXTREMES OUTSIDE PERIOD OF RECORD.--Maximum discharge, 4,380 ft³/s January 1965, on basis of slope-area measurement.

EXTREMES FOR CURRENT YEAR.--Peak discharges greater than base discharge of 700 ft³/s and maximum (*):

Gentlemen: please review and send us comments on the referenced surface water right applications by the dates referenced. Thanks you very much.

GREGG: Please send us your comments on Water Right application 82-07207 - Dieringer, water from the American River, and Water Right application 86-07371 - US Department of Energy (Bonneville Power Administration), water from Clearwater River.

We need your comments on these two by NO LATER than February 7, 2000, in order to complete processing in a timely manner. Thanks. Dianne Ball, IDWR-Cd'A

The Post Register

State of Idaho
County of Bonneville

RECEIVED
FEB 04 2000
IDWR/North

I, S. Bob Bright or Robert Park, first being duly sworn, depose and say: That I am the Production Supervisor or Asst. Prod. Supervisor of The Post Company, a corporation of Idaho Falls, Bonneville County, Idaho, publishers of The Post Register, a newspaper of general circulation, published daily at Idaho Falls, Idaho; said Post Register being a consolidation of the Idaho Falls Times, established in the year 1890, The Idaho Register, established in the year 1880 and the Idaho Falls Post, established in 1903, such consolidation being made on the First day of November, 1931, and each of said newspapers have been published continuously and uninterrupted, prior to consolidation, for more than twelve consecutive months and said Post Register having been published continuously and uninterrupted from the date of such consolidation, up to and including the last publication of notice hereinafter referred to.

That the notice, of which a copy is hereto attached and made a part of this affidavit, was published in said Post Register for two consecutive (days) weeks, first publication having been made on the 20th day of January, 2000, last publication having been made on the 27th day of January, 2000, and that the said notice was published in the regular and entire issue of said paper on the respective dates of publication, and that such notice was published in the newspaper and not in a supplement.

Robert Park

Subscribed and sworn to before me, this 2nd day of February, 2000

Patricia O'Malley
Notary Public

Affidavit of Publication

STATE OF IDAHO
COUNTY OF TWIN FALLS } SS.

I, Ruby Aufderheide being first duly sworn upon oath, depose
and say that I am principal clerk of the TIMES-NEWS, published daily, at
Twin Falls, Idaho, and do solemnly swear that a copy of the notice of advertisement, as per
clipping attached, was published in the regular and entire issue of said newspaper, and not in any
supplement thereof, for TWO consecutive weeks,
commencing with the issue dated Jan 20, 192000,
and ending with the issue dated Jan 27, 192000.

And I do further certify that said newspaper is a consolidation, effective February 16, 1942, of the Idaho
Evening Times, published theretofore daily except Sunday, and the Twin Falls News, published theretofore daily except
Monday, both of which newspapers prior to consolidation had been published under said names in said city and county
continuously and uninterruptedly during a period of more than twelve consecutive months, and said TIMES-NEWS, since
such consolidation, has been published as a daily newspaper except Saturday, until July 31, 1978, at which time said
newspaper began daily publication under said name in said city and county continuously and uninterruptedly.

And I further certify that pursuant to Section 60-108 Idaho Code, Thursday of each week has been designated
as the day on which legal notice by law or by order of any court of competent jurisdiction within the state of Idaho, to be
published weekly, will be published; and that at the head of the editorial column of said combined newspapers, and in each
issue thereof, Thursday is announced as the day on which said legal notices will be published.

STATE OF IDAHO
COUNTY OF TWIN FALLS

On this 27TH day of Jan in the year of 2000, before me,
a Notary Public, personally appeared Ruby Aufderheide
known or identified to me to be the person whose name subscribed to the within instrument, and being by me first duly
sworn, declared that the statements therein are true, and acknowledged to me that he executed the same.

Water Right Applications Nos. 85-07664, 86-07371, 86-07372 and 86-087383

Date: January 14, 2000

Enclosed you will find copies of the above referenced water right applications. They have been mailed for advertising. The advertising for 85-07664 will be in the Idaho County Free Press, scheduled to run 1/19 and 26. The advertising for 86-07371 will run state-wide because it is over 10 CFS, and will be in the Lewiston Tribune, Times News, Post Register and Idaho Statesman, scheduled to run 1/20 and 27. The advertising for 86-07372 and 86-07373 will be in the Lewiston tribune, schedule to run 1/20 and 27.

The final date for protest, provided they all run correctly, i.e. without any publishing errors, will be February 7, 2000

Thank you.

Re: Water Appropriation Applications Nos. 85-07664, 86-07371, 86-07372, 86-07373
TR-3: JHNCK-FF-1GW; NPTH-FF-3SW; NPTH-FF-3WW; and NPTH-FF-3WW respectively

Dear Ms. Wolcott:

The Idaho Department of Water Resources hereby acknowledges receipt of the above referenced Application for Permit to appropriate the Public Waters of the State of Idaho. To assist us in providing you with prompt, accurate service, please refer to the above referenced number in all future matters concerning this water right application. Enclosed for your file is Receipt Number N013388.

Your appropriation application is currently being prepared for advertising in the local county newspaper. This advertisement will be published for two consecutive weeks followed by a waiting period of ten days to allow for the submittal of protests. Normal processing time is approximately 3 to 4 months, if the application is not protested.

If the application is not protested, it will be forwarded to Boise to be considered for approval by the Director. State office personnel will then conduct a complete review, and you will be notified by mail of the outcome. However, if the application is protested during this waiting period, you will be sent a copy of the protest and instructions to aid you in resolving the protest without a hearing. All protests must be resolved before approval of the application can be made, so if the protestant does not voluntarily withdraw the protest, this department will conduct a conference and/or hearing on the matter.

You will receive your approved Application for Permit and instructions on filing the Proof of Beneficial Use from our State office in Boise.

If your source is groundwater, a Well Drilling Permit is required for all wells constructed after July 1, 1987.

A "Domestic" well drilling permit should be obtained for a rate of diversion of up to 18 gallons per minute (0.04 CFS) and a daily volume of up to 2,500 gallons per day. The cost for this permit is \$75.00. For any other use, including multiple homes, or municipal, etc., the Drilling Permit fee is \$200. These Permits can be obtained by your driller, also. It is sometimes possible to upgrade an existing Domestic Drilling Permit by submitting a fee for the difference. This, however, depends on the individual well.

If you have any questions or if I can be of any assistance please feel free to contact me at this office.

Sincerely,

ALLEN BEARDSLEE
Senior Water Resources Agent

Coeur d'Alene, ID 83706

Dear Mr. Beardslee:

Enclosed are four completed Applications for Permits to Appropriate the Public Water of the State of Idaho.

Also enclosed is U.S. Government, Bonneville Power Administration (BPA), check No. 184, Drawn to the order of State of Idaho, Dept. of Water Resources in the amount of \$1,070 to cover the application payment for the enclosed permit applications as follows.

BPA Tract No.	Source of Water Supply	cfs	Permit Fee
JHNCK-FF-1GW	Wells #1 and #2, Test Wells	1.7	\$ 120.00
NPTH-FF-3SW	Clearwater River	35.0	\$ 630.00
NPTH-FF-2WW	Wells - 5	7.0	\$ 220.00
NPTH-FF-3WW	Well	0.25	\$ 100.00
TOTAL			\$ 1070.00

Please take the necessary steps to process these applications and include BPA's Tract No.'s on any future correspondence. Any questions regarding these applications should be directed to BPA, Madonna Presley, at (503) 230-5680. Thank you for your attention to this matter.

Sincerely,

Marian Wolcott
