RECOMMENDATION OF WATERMASTER

Application No: 73852
Water Right No: 36-7269A, 36-8127A
Applicant Name: Country Club Estates

Watermaster's Recommendation:

- a) ☐ I do not oppose approval of this application
- b) ☒ I do not oppose approval of this application if it is conditioned as follows:

As drafted OK

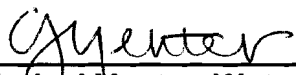

Add: When diversions occur from the pond site in Lot 3 (NWSENW) Sec 31, T09S R18E, natural flow equal to or exceeding the pumped rate of flow must be available from the springs, must be available in priority, and must be entering either the pond or the Snake River. Water user may be required to install measuring devices on spring lines if flow availability is suspect.
No storage of flows may occur in the pond.

- c) ☐ I oppose approval of this application(s) for the following reasons:
- d) ☒ Additional comment:

This transfer adds much needed flexibility to the golf course irrigation system, however, care must be taken not to enlarge the availability of water pursuant to this change. There are also other rights which share the springs and full monitoring of distribution is necessary.
