

MEMORANDUM

To: Water Right File No. 57-11612
From: Aaron Marshall
Date: September 19, 2007

Re: Water Right No. 57-11612, License Processing

Chronology of Water Right No. 57-11612:

Water right permit no. 7597 was split on March 13, 2002, into water right permit nos. 57-11610, 57-11611, and 57-11612.

Assignment of Permit was received on February 25, 2000 giving ownership to Christine and Richard Wawock.

Proof of Beneficial Use was received on November 24, 2003 with proper payment.

The field examination was conducted by Lori Graves on August 16, 2005.

Beneficial Use Field Report completed on March 5, 2007.

Upon evaluation of water right permit no. 57-11612 for license issuance, I made the following observations:

The point of diversion overlaps with water right permit no. 57-11610.

The field examiner recommended; domestic use (in-house and ½-acre irrigation) for one home, a flow rate of 0.04 cfs, and an annual volume limit of 1.2 AFA based on 0.6 AFA for in-house use and 0.6 AFA for ½-acre irrigation per home.

I concur with the field examiner's indication that the conditions of permit approval have been met.

The field examiner made a theoretical flow computation assuming 70% pump efficiency. Flow and volume calculations have been checked and are correct.

The license for 57-11612 was issued based on the field examiner's recommendation.

Shape files and draft license were created by Lori Graves prior to my evaluation. Shape files accurately depict her findings as the field examiner.

Total Acres: 5

DOMESTIC same as IRRIGATIONConditions of Approval:

1. 46B The right holder shall comply with Idaho well construction standards when constructing a well pursuant to this right.
2. 26A Project construction shall commence within one year from the date of permit issuance and shall proceed diligently to completion unless it can be shown to the satisfaction of the Director of the Department of Water Resources that delays were due to circumstances over which permit holder had no control.
3. 046 Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.
4. Point of diversion is located within Lot 6, Blk. 2, Eagle View Estates Subdivision No. 4.
Places of use are located within Lot 2, Blk. 2, Eagle View Estates Subdivision No. 4.
Domestic use is for 1 home.
The domestic use authorized under this permit shall not exceed 13,000 gallons per day per dwelling in accordance with Section 42-111, Idaho Code.
5. 01M After specific notification by the department, the right holder shall install a suitable measuring device or shall enter into an agreement with the department to determine the amount of water diverted from power records and shall annually report the information to the department.
6. 46A A well drilled pursuant to this permit must be located at least 500 feet from any existing well. Well spacing closer than 500 feet must be approved by the Department of Water Resources.
7. 03A The rate of diversion of water for irrigation under this right and all other water rights on the same land shall not exceed 0.02 cubic feet per second for each acre of land.
