Keith Franklin,
Shelley Keen told me that you two had had a brief phone discussion about one of the permits I am reviewing. I've attached a memo, directed to Shelley, which summarizes the information I need from the field exam in order to process this permit.

Thank you for offering to take another look at it.

Because we have already scanned the existing beneficial use field report, we will keep it here at the state office.

Please don't hesitate to contact me with questions.

Thanks again,

Michele Edl
