PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 22-13547

Dear Permit Holder:

The Department acknowledges receipt of a Request for Extension of Time ("request"), a Proof of Beneficial Use ("proof") and \$50.00. During a telephone conversation with Steve Anderson I verify that the development of the system is completed and water lines are stubbed to the building lots. Therefore, the request appears to be unnecessary and proof is appropriate. Therefore, I will return the request form with this letter.

The department accepts the proof you filed, and the enclosed Reinstatement Order reinstates the permit and advances the priority date since proof was submitted after the proof due date. The next step in the process of developing a water right is for the department to contact you to schedule a field examination to determine and confirm the use being made of the water and that it meets the permitted beneficial use.

Additionally, you paid \$50.00 when you filed these documents. Because I am returning the request and the fee is waived for permits having a diversion rate of 0.04 cfs or less from a groundwater source, the department will be refunding your money. Therefore, I have requested that a check be issued in the amount of \$50.00. This check will be mailed to Nelson Engineering within 7-10 business days.

Be advised that Section 42-248, Idaho Code requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

If you have any questions regarding the field examination, please contact the Eastern Regional office in Idaho Falls at (208)525-7161.

Sincerely,

Deborah J. Gibson
Administrative Assistant
Water Allocation Bureau

Encl.
