PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 65-22676

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water, and that it meets the permitted beneficial use.

During my review of your proof and water right permit, I found that this permit requires you to have a measuring device installed. According to paragraph 4 of your permit, under Conditions of Approval, it states:

Prior to diversion of water under this right, the right holder shall install and maintain a measuring device and lockable controlling works of a type acceptable to the Department as part of the diverting works.

Therefore, I recommend that this condition be completed prior to the field examination. You may contact the regional office in Boise to answer any questions you may have about this matter. If you have complied with this requirement, please disregard this information.

Be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

If you have any questions regarding this letter or the proof, you can contact me at (208) 287-4942. If you have questions concerning the field examination, please contact the Western Regional Office of the department in Boise at (208) 334-2190.

Sincerely,

Deborah J. Gibson
Administrative Assistant
Water Allocation Bureau
