RE: Change of Ownership for Water Rights 36-10917 and 36-15177 (resulting in a split to create new water right 36-16500)

Dear Mr. and Mrs. Standlee:

The department acknowledges receipt of correspondence changing ownership of the above referenced water rights to you. The department has modified its records to reflect the changes in ownership and has enclosed computer-generated reports for your records.

During review of the above change in ownership, another water right was found to be appurtenant to your property, 36-4085. This water right is meant to supplement original water right 36-15177 and now can be proportioned to supplement water right 36-16500. This would need to be achieved by splitting that water right since you don't have ownership over all the property this water right covers. I would be happy to perform the change in ownership of water right 36-4085. Please submit the enclosed change in ownership form along with the appropriate fee so this can be accomplished.

Please note that as of July 1, 1996, water right owners are required to report any change of water right ownership and any change of mailing address of the owner of a water right to the department. Notice of the change must be provided to the department within 120 days of the change. Change reporting forms are available from any office of the department.

Please feel free to contact this office if you have any questions regarding this matter.

Sincerely,

Cherie Padilla, Water Agent
Water Allocation Bureau
