RE: Amendment to Kelley Companion Application

Dear Aaron:

I have discussed the amendments to the companion application, in particular the Application to Rent Water from the Water Supply Bank, with George and Bill Kelley. We would like to amend the application in the following manner:

1. *Maximum Volume of Water (A.2):* This should be 228 af. Given the late start that the Kelleys will have to this irrigation season, they will not be able to use any more water than decreed in the two water rights being placed in the bank (#'s 45-4236 & 45-4048). They will only be using water for the next two months. However, they do need more than a 1.14 cfs diversion rate. So, the 2.0 cfs diversion rate is still requested.
2. *Description of Diverting Works (B.4):* The pump being used is a 350 hp diesel pump with a 12-inch bowl and 10-inch column. The lift is 150 feet.
3. *Acreage in POU (B.5.a):* In the application, we placed three quarter sections. Each section is 160 acres. However, since the Kelleys will be using a center pivot sprinkler system, only 120 acres in each field will be irrigated.
4. *Ownership of POU (B.7):* The Kelleys purchased this property from Jack and Betty Hunter in 2005 or 2006. I will forward to you the tax information as soon as I receive it (hopefully, later today).

I think this is all that we discussed on the phone, if there is anything else, please let me know ASAP.

Yours truly,

Paul L. Arrington
