

MEMORANDUM

Date: September 12, 2007
To: Water Right File 65-10784
From: medl
Re: correspondence

7/30/07 I responded to an office day phone call from Mr. Meserth. He had a concern about the shape we had in our records for his water right. He had screen shots demonstrating the shape difference that he wished to send to us. I agreed to review them and get back to him with my conclusions.

8/13/07 With the help of a GIS analyst, I was able to see the same shapes he was seeing and understood how he might be confused about them. I sent him an email response.
