DEPARTMENT OF
WATER RESOURCES

Attn: Michelle Edl

Hello Michelle,

I am sending you two images:

Image 1 is the IDWR infrared photo of our area on Anderson Creek that has the 'Place of Use' outlined in the incorrect location. This image is in our internet IDWR website file. I used dashed lines of blue ink to outline our property.

Image 2 is a Google Earth photo of our area. Again I used dashed lines of blue ink to outline our property. I used a red circle for the point of diversion where our pump has been for the last 30 years on Anderson Creek and I used dashes of red ink to show where the irrigation ditch crosses our property.

The 'Place of Use' is obvious on the Google map. It is the green area north and east of the pump diversion point and west of Anderson Creek Rd.

This should be helpful to you in outlining the correct 'Place of Use' on your map.

Thank You,

Werner and Judith Meserth
