

**STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES**

NOTICE OF PROTEST

This form may be used to file a protest with the department under sections 42-108B, 42-2-3A, 42-203C, 42-211, 42-222 and 42-224, Idaho Code.

1. Matter being protested: Oxborrow Statutory Claim No. 11-7580.
2. Name of protestant: Bushman Farm & Livestock Co., LP
C/o John Bushman, Partner
680 W. Main
Lehi, Utah 84043
(801) 368-6370
3. Protestant's Representative: Randall C. Budge
Racine, Olson, Nye, Budge & Bailey, Chartered
4. Service mailing list: P.O. Box 1391, Pocatello, Idaho 83204.
5. Service telephone number: 208-232-6101.
6. Basis of Protest:
 - A. The claim is invalid because all water rights to the Bear River and all tributaries, including Nounan Creek, Stauffer Creek, Spring Creek and their tributaries were adjudicated in the District Court of the United States for the District of Idaho, Eastern Division, in the case of *Utah Power & Light Co. V. Last Chance Canal Co., et al, in Equity No. 203*, with Final Decree entered by District Judge F. S. Dietrich filed July 14, 1920 (the so-called "Dietrich Decree").
 - B. The relevant portions of the Dietrich Decree, including pages 25 through 30 which set forth the rights in Nounan Creek, Stauffer Creek and their tributaries as established in the Decree in 1920 are attached hereto. For each decreed right, the handwritten number reflects the identifying number assigned to each right by the Idaho Department of Water Resources, which would begin with Water Right No. 11-0291 and end with 11-0313. Although all of these rights have not been updated on the records of the Department to reflect the current owners, the rights of the current owners affected by the statutory claim are believed to be as follows:

Owner:

Water Right Nos.

Bushman Farm and Livestock
Company, LP

11-291, 11-292, 11-293
11-296, 11-297, 11-299

Melba Bartschi	11-310

- C. Water Right No. 11-308 was originally decreed to William Morgan Williams with a priority date of 5/1/1897 permitting the diversion and use of 0.5 cfs of water from Stauffer Creek for irrigation purposes from April 20 through September 30. There are two points of diversion reflected in Sections 33 and 34, T. 11 S., R. 43 E., B.M., Bear Lake County, with the place of use described as 25 acres located in the SE NE, Section 23, and NW NW of Section 24, T. 11 S., R. 43 E. Claimant purportedly also owns 320 acres located in the SW1/4, S1/2 SE1/4 of Section 32, T. 11 S., R. 34 E., but there are no water rights appurtenant to this property.
- D. Based on the foregoing, the claim of claimant is invalid. Any water right established by claimant by beneficial use could only have been established after the entry of the July 14, 1920 Dietrich Decree.
- E. The quantity of water claimed by claimant substantially exceeds the maximum duty of water of .02 cfs per acre allowed by Idaho law. Accordingly, the quantity claimed could not lawfully have been applied to beneficial use on the listed irrigated acres.
- F. The claimant first diverted the claimed water in the year 2007. There are no known prior authorized diversions of the claimed water.
7. What would resolve your protest? Denial of the statutory claim.

I hereby acknowledge that if I, or my designated representative, fails to appear at any regularly scheduled conference or hearing in the matter of which I have been notified at the address above, the Department may issue a notice of proposed default against me in this matter for failure to appear. I also verify that I have served a copy of this protest upon the applicant.

Signed this 10 day of September, 2007.
