

MEMORANDUM

Date: September 05, 2007
To: Water Right File 37-21771
From: cpadilla
Re: Permit Review

WD-130

Protests-none

Overlaps-WR 37-21221, 37-21222 and 37-7218 allow 8.26 cfs for fish propagation/pond use. WR 37-7749 has power use at 5.21 cfs. The difference between 8.26 and 5.21=3.05 cfs is the maximum diversion this new permit is authorized for since the fish pond is where the water is being diverted from. Recommend for approval as suggested by the region.
