Dear Western Region,

I have been following application #63-32423, an application for a municipal well, filed by JMM Dry Creek. I wish to protest this application when it has become advertised. I understand that finishing up the administrative work with the adjudication process has placed new applications on hold, probably until the new year.

Please place this letter with the file for application 63-32423 as my request for a reminder to be told when the app has been advertised and the time for protest arrives.

Thank you.

Sincerely,

A handwritten signature in cursive script that reads "Marian Shaw". The signature is written in black ink and is positioned to the right of the word "Sincerely,".
