Subject: M3 Eagle Meeting and Dry Creek Application 3-31-2007

1002 W. Franklin St. Boise, ID 83702 (208) 342-8369 Fax: (208) 342-3100 Cell: (208) 631-6781

Dear Steve,

Thank you for taking time to attend our recent meeting at the State Office with respect to the M3 Eagle Municipal Application For Permit. I appreciated your description of the current status of the processing queue and when M3 could expect to come up.

You mentioned that an Application by another planned community in the Dry Creek area was ahead of M3 in the processing queue. Would it be possible for me to get a copy of that filing prior to the public advertisement period?

As an aside, we have passed out copies of M3's application to all interested parties in the Eagle area including all protestants in the City of Eagle's recent administrative hearings. We have also made presentations to these entities on the water right application and our water studies in the area in hopes of streamlining the process and , hopefully, avoiding a contested application.

Please let me know if I may obtain a copy of the Dry Creek Application.

Ed
