

MEMORANDUM

Date: August 16, 2007
To: Water Right File 35-13577
From: cpadilla
Re: Permit Review

E Retelle had conversation with applicant and found the # of homes requested under this permit is 32 not 30 as the application says.

This overlaps POU for 35-9085 and irrigation right through Riverside Canal. There are 54 lots total for this subdivision. Together these WRs will authorize 0.016 cfs per lot.

Approving the permit for 32 homes, not 30, is not an enlargement; it is just a clarification because the application also lists 32 lots in item #12.

S. Keen

8/17/07

Spoke w/ Earl Mechem 8/17/07 about using canal shares for irrigation before gw under this permit. He agrees with this condition. cf
