IDWR/North

Dear Eric,

For your records; Mr. Del Kerr has applied for a Special Use Permit for a water line that crosses approximately 200 feet of National Forest lands and a water collection devise in Ryan Creek. This development exists and will be authorized by permit at sometime in the near future. Mr. Kerr's application has been on file for six years.

The Erickson, "Ranch" has had a water collection system and short pipe-line on National Forest Lands in Trail Creek for over one-hundred years. At sometime in the near future this system will be authorized by special use permit.

Funding, personnel shortage and other priorities have prevented us from acting in a timely manner on these cases.

JACK W. DORRELL

Recreation-Lands Staff Officer
