RE Simplot concern - vic CONRAD 389-7359

Vic called to discuss Simplot concerns about possible volume beyond 13,000 g/d - asked if dept. anticipated conditions of approval to monitor/regulate that.

Told him we typically do not include that with de minimus rights. Vic said Simplot has had issues with BRACKETT & this type of thing in other situations. Also said Simplot does not want to protest & this issue.

Simplot might file a letter of concern to see if dept. might look into this with BRACKETT. Letter would be prior to protest deadline.
