Chuck - Understood. I will hold the app and the transfers until the end of January. I have 1957, 1964 and 1969 photos for this property, so we should have lots to talk about when you are ready.

Jim,

I'll get you the extra \$190. As far as the transfer apps, we will be receiving all available historical aerial photos soon. I do not want to meet until I've had a chance to review those and determine the irrigation status on each. I will let you know once that analysis is complete.

Chuck

Chuck - This app was filled out for on-stream storage, but the system is for off-stream storage. This requires a diversion rate to storage. Since this was not on the app, I used the rate of their Bullion Creek decree - 2 cfs. The correct filing fee is \$290, not \$100 as submitted. Therefore, we need another \$190 to continue processing of this app.

I would like to meet with Mr. McAtee as soon as it is convenient in order to discuss the 4 transfers and the app. He should plan to be available for most of the day, as there is a lot of work to do to get everything squared away (filing expansion claims, etc.). Can you arrange this, or should I call him directly? Thanks.
