Re: Amended transfer applications – Croy Creek Properties
Nos. 71652, 73854, 73855, 73856

Dear Jim:

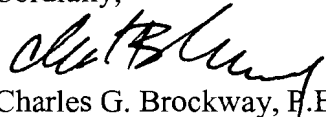

Enclosed please find four (4) transfer applications for the above-referenced applicant which should substitute for the applications that are currently pending.

The applications are based on the SRBA recommendations for all rights. The ownership of both the surface water right and the groundwater right has been changed to Croy Creek Properties, LLC and the amounts reduced to reflect the split off of a small portion of the surface rights. The PPU which will be created is somewhat different than the original request. The PPU boundary will reflect the service area of the irrigation delivery company which is in the process of being established.

Kelly Christensen prepared the recommendations and I believe did the ownership splits as well, so you may wish to consult with him if you have any questions about those.

Please let me know if you need anything further.

Cordially,

Charles G. Brockway, P.E.
