Ok, thanks Jim. I e-mailed Mike Ciscell this morning about the recommendations but haven't heard back.

The subdivision was finally approved a few months ago, and it is different than the layout originally assumed for the transfers. So we'll likely amend the transfer apps to fit the new layout, and to use the recommendations as the baseline (assuming the recommendations are acceptable to the owner).

Chuck

Chuck - I talked to Kent McAtee last spring about this after visiting the property to look at the pond above his house. He said that the county had a problem with the subdivision, so he had to replat part of it. I have been waiting for a replat ever since, as this is holding up the app and the 4 transfers, but have heard nothing. Once I have the replat and the completed SRBA recommendations (I haven't checked to see if they are done, but will do so probably today), I should be able to move forward on this whole package.

Jim,

Please respond to Chuck about the status of this application and maybe the other transfers related to this project.

Thanks.

Allen
