RE: Transfer #73349 (ACME Dairy)

Dear Robert,

I have been trying to reach you and have left a couple of messages, but evidently you have not received them so I thought I'd just write you. Anyway, when we started to process your transfer which proposes to drill another well, the question came up as to whether or not we should also include your right on the feedlot, 45-10454. That right was included on the previous transfer (#71793), which added the well that turned out to be less than productive. If the wells are actually tied together, you should probably add 45-10454 to this transfer.

Please give me a call at the office and let me know what you want to do. We can print out another application showing the added right and send it to you for signature and notarization, or you can swing by the office and sign one if you're coming to Twin.

Sincerely,

Jeanie Robertson
Sr. Water Resource Agent
