6. General Information:

- a. Who owns the water right to be changed? Applicant
- b. Describe the arrangement allowing use of the right _____
- c. Describe the affect on the land now irrigated if the change is approved pursuant to this application:
Some posture will be dried up
- d. Has the water right sought to be transferred been used this year? Yes If yes, explain. Has been used under gravity flow
- e. Absent the changes, how would the right be used for the remainder of the year? Would be used as before if available (would probably not be available due to drought)
- f. Describe other water rights used for the same purpose.
Late water rights have already been cut
- g. Remarks: This same request was approved in 2005. It is better to use this water efficiently in sprinklers instead of wasting it in ditches.

I hereby assume all risk in accordance with Section 42-222A, Idaho Code, and assert that no one will be injured by such change and that the change does not constitute an enlargement in use of the original right. The information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in voiding its approval.
