Dear Randy:

Harvey Walker just came by and gave us copies of some documents which we very much appreciate. But there is still a problem with the "Water Transport Agreement". We assume it will need to be modified to contain the correct numbers. Our understanding is as follows.

Harvey gave us a copy of a "Memorandum of Agreement", dated the _____ day of June, 2006, between the "County of Teton Fair Board" as Seller, and Blackfoot Farms, as buyer. It recites that Fair Board has a claim to Water Right No. 22-7215A for 0.6 cfs and 90.0 acre feet. It then purports to convey to Blackfoot Farms 83 acre feet of this right and retain 7 acre feet for the Fair Board's use. This all appears to be correct as far as the SRBA claim of the Fair Board was concerned at that time.

The problem is, that when IDWR made its final recommendation to the SRBA Court, it recommended only 0.38 cfs and 66.15 afa for 18.9 acres for 22-7215A. Now the Fair Board has initiated a transfer proceeding, No. 73308, to split the right into two pieces with new numbers:

22-13664 - 0.33 cfs/59.15 afa for 16.6 acres

22-13665 - 0.5 cfs/7.00 afa for 2.3 acres

We presume the Fair Board intends to keep 22-13665 and to convey to Blackfoot Farms 22-13664, but it appears to us that a new document of conveyance will be needed.

Page 2 of 3

Our review of the final recommendations for 22-7215A and 22-7215C indicates they were recommended as follows:

22-7215A - 0.68 cfs/102 afa for 34 acres
22-7215C - 0.40 cfs/78 afa for 20 acres

And Harvey was kind enough to leave us copies of a "Memorandum of Agreement" signed by Michael Stears on behalf of Blackfoot Farms and by Thomas Underhill under which it appears Blackfoot Farms is to receive all of 22-7215B from Underhill. There is a second copy of the same "Memorandum of Agreement" signed by Michael Stears of Blackfoot Farms and by Kent Hillman, a partner in AIR Associates, under which it appears Blackfoot Farms is to receive all of 22-7215C.

So, if we add 22-13664 to 22-7215B and 22-7215C, we show the following:

22-13664 - 0.33 cfs/59.15 afa for 16.6 acres
22-7215B - 0.68 cfs/102 afa for 34.0 acres
22-7215C - 0.40 cfs/78 afa for 20.0 acres

Totals: ~~1.46 cfs/246.15 afa for 76.9 acres~~ - 70.6 acres *246*
1.41 cfs

Harvey indicated he was going to file Notices of Change of Ownership, we assume for each of the three rights, although we have seen no deeds and question whether the documents we have seen really constitute instruments of conveyance. As you know, each of the water rights is a real property right and normally IDWR likes to see formal recorded instruments of conveyance before approving a change of ownership. Harvey also indicated he was going to file applications for temporary transfers of these rights. We do not know why temporary transfers would be preferable to a permanent transfer application, which the "Water Transport Agreement" seems to contemplate. Perhaps IDWR approval can be obtained faster for a temporary transfer, but a permanent transfer will be needed ultimately in any event, will it not?

Perhaps the "Water Transport Agreement" can be modified to accomplish the objectives of the parties. Please let us know how you wish to do it.

WATER TRANSPORT AGREEMENT

Grand Teton Canal Company Limited Blackfoot Farms, L.C.

AGREEMENT effective this 19th day of June, 2007, between Grand Teton Canal Company Limited, an Idaho Corporation (hereinafter "the Canal Company"), and Blackfoot Farms, L.C., a Utah Limited Liability Company (hereinafter "Blackfoot Farms"), collectively referred to as the "parties."

RECITALS

A. WHEREAS, Blackfoot Farms owns Water Right Numbers 22-7215A, 22-7215B, and 22-7215C (hereinafter the "well water rights"), for which the point of diversion is a well located in the Northwest $\frac{1}{4}$ of the Southwest $\frac{1}{4}$ of Section 24, Township 5 North, Range 45 East, Boise Meridian (hereinafter the "Blackfoot Farms well"); and

B. WHEREAS, Blackfoot Farms desires to change the place of use under its well water right numbers 22-7215A, 22-7215B, and 22-7215C to property located in the W1/2 of Section 26, Township 5 South, Range 45 East, B.M., and has filed with the Idaho Department of Water Resources an Application for Transfer to accomplish such change, which transfer remains pending and subject to unresolved objections in the SRBA Court to the number of acres under Water Right No. 22-7215A; and

C. WHEREAS, the Canal Company owns and operates a lateral ditch commonly known as the "Curtis-Johnson Ditch," which passes adjacent to the Blackfoot Farms well and runs due west for a distance of approximately three-quarters ($\frac{3}{4}$) of a mile, at which point the ditch divides into two separate branches, with one branch flowing north (the "Johnson Branch") and one branch flowing south (the "Curtis Branch") to the proposed new place of use of Blackfoot Farms well water rights; and

D. WHEREAS, the parties desire to enter into this agreement to provide for the transport of Blackfoot Farms' well water rights via the Curtis-Johnson Ditch and Curtis branch upon the terms and conditions set forth below.

WATER TRANSPORT AGREEMENT

Grand Teton Canal Company Limited Blackfoot Farms, L.C.

AGREEMENT effective this 19 day of June, 2007, between Grand Teton Canal Company Limited, an Idaho Corporation (hereinafter "the Canal Company"), and Blackfoot Farms, L.C., a Utah Limited Liability Company (hereinafter "Blackfoot Farms"), collectively referred to as the "parties"

RECITALS

A. WHEREAS, Blackfoot Farms owns Water Right Numbers 22-7215A, 22-7215B, and 22-7215C (hereinafter the "well water rights"), for which the point of diversion is a well located in the Northwest $\frac{1}{4}$ of the Southwest $\frac{1}{4}$ of Section 24, Township 5 North, Range 45 East, Boise Meridian (hereinafter the "Blackfoot Farms well"); and

B. WHEREAS, Blackfoot Farms desires to change the place of use under its well water rights to an 81.7 acre parcel of property located in the West $\frac{1}{2}$ of Section 26, Township 5 North, Range 45 East, Boise Meridian, and has filed with the Idaho Department of Water Resources (IDWR) Transfer No. _____ to accomplish such change; and

C. WHEREAS, the Canal Company owns and operates a lateral ditch commonly known as the "Curtis-Johnson Ditch," which passes adjacent to the Blackfoot Farms well and runs due west for a distance of approximately three-quarters ($\frac{3}{4}$) of a mile, at which point the ditch divides into two separate branches, with one branch flowing north (the "Johnson Branch") and one branch flowing south (the "Curtis Branch") to the proposed new place of use of Blackfoot Farms well water rights; and

D. WHEREAS, the parties desire to enter into this agreement to provide for the transport of Blackfoot Farms' well water rights via the Curtis-Johnson Ditch and Curtis branch upon the terms and conditions set forth below.

AGREEMENT

NOW THEREFORE, in consideration of the mutual covenants and agreements herein contained, and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the parties agree as follows:

1. **Transport.** Provided that the ditches have adequate capacity, the Canal Company agrees to transport Blackfoot Farms' well water rights via the Curtis-Johnson Ditch and Curtis Branch from the point at which the Curtis-Johnson Ditch passes the Blackfoot Farms well to a point on the Curtis Branch approximately $\frac{1}{4}$ mile south of where the Curtis-Johnson ditch divides. At that point Blackfoot Farms will divert its well water out of the Curtis Branch, for delivery to the new place of use in the Northwest $\frac{1}{4}$ of the Southwest $\frac{1}{4}$ of Section 24, Township 5 North, Range 45 East, B M. The Canal Company's transport of said water rights will not establish any right or claim in such flows, nor be allowed to deprive or interfere with the prior right and obligation of the Canal Company to deliver water to its shareholders via the Curtis-Johnson Ditch.

2. **Measuring Devices.** Blackfoot Farms agrees to pay the cost of purchasing and installing three water flow measuring devices for the use and benefit of the Canal Company in measuring and controlling the transport of water, including Blackfoot Farms' well water rights, through the Curtis-Johnson Ditch and the Curtis Branch. One measuring device shall be installed in the Curtis-Johnson Ditch at a point west of Blackfoot Farms well, as near as practicable to said well, but within 200 feet of the well. A second measuring device shall be installed in the Curtis Branch, as near as practicable to and within 200 feet of the point at which the Curtis-Johnson Ditch divides into the Johnson Branch and the Curtis Branch. A third measuring device shall be installed as near as practicable to the head of the lateral ditch adjoining the Curtis Branch and flowing due west from its intersection with the Curtis Branch at a point approximately 400–600 feet south of where the Curtis-Johnson Ditch divides into the Johnson Branch and the Curtis Branch. The exact location, size and design of the measuring devices shall be approved by the Canal Company and shall belong to the Canal Company following installation.

3. **Water Master Services.** The water master of the Canal Company shall have the sole and exclusive authority and responsibility to measure and control the transport of Blackfoot Farms' well water rights through the Canal Company's ditches.

(a) Said water master shall keep such records as he deems sufficient of the days the well is operating and the quantity of water delivered pursuant to this Agreement during the irrigation season.

(b) Blackfoot Farms agrees to compensate the Canal Company Five Thousand Dollars (\$5,000.00) for the first year that the Canal Company transports water pursuant to this Agreement. After the first irrigation season, the parties shall establish by mutual agreement, the amount to be paid by Blackfoot Farms to Canal Company for each additional season during which the Canal Company agrees to transport water pursuant hereto.

(c) The sum of Five Thousand Dollars (\$5,000.00) for the first season's Water Master services shall be paid by Blackfoot Farms to Canal Company upon the execution of this agreement, receipt whereof is hereby acknowledged by Canal Company. Thereafter, the amount agreed to for any subsequent season shall be paid by Blackfoot Farms to Canal Company on or before the first day of May of the season for which such Water Master services will be provided by Canal Company.

4. **Easement and Access.** Blackfoot Farms shall grant to the Canal Company all easements and access necessary for the water master's access, for control, and observation of the well and measuring devices and through with Blackfoot Farms' well water rights are transported and diverted to insure the proper measurement and delivery of water to Blackfoot Farms and the Canal Company shareholders.

5. **Indemnification.** Blackfoot Farms agrees to indemnify and hold the Canal Company harmless from any and all claims arising out of the design, construction and installation of the measuring devices and other facilities by Blackfoot Farms and the transport of Blackfoot Farms' well water rights under this Agreement.

6. **Blackfoot Farms Representative.** Blackfoot Farms agrees to designate one person to represent Blackfoot Farms in all dealings with the Canal Company and to act as a liaison between the parties.

7. **Additional Documents.** The parties will execute such additional deeds, releases and other documents and instruments as may be required to carry out the purpose and intent of the foregoing Agreement.

8 **Cooperation.** The parties will cooperate, communicate and act in good faith with each other as may be reasonable and necessary in exercising their rights and performing their responsibilities pursuant to this Agreement.

9 **Default.** In the event any party fails to perform any of the terms, conditions or provisions of this agreement, and fails to cure such default within thirty (30) days of receipt of written notice of default, the non-defaulting party may elect any one of the following remedies, which are the sole and exclusive remedies available.

- (a) to terminate this Agreement; or
- (b) to obtain specific performance of this Agreement.

10. **Legal Fees.** In the event legal action is undertaken to enforce this Agreement, the prevailing party shall be entitled to recover reasonable attorney fees and costs.

11. **Binding Effect.** All of the terms, conditions and covenants of this Agreement shall be binding upon the parties and shall inure to the benefit of all successors and assigns of the parties hereto.

12 **Assignment of this Agreement.** This Agreement shall be assignable by Blackfoot Farms to the homeowner's association of Huntsman Springs upon completion of that development

13 **Modification or Revocation.** This Agreement may be modified or revoked in writing upon the mutual consent of all the parties hereto, or their successors in interest.

14 **Dispute Resolution.** Any substantial dispute between the parties shall be resolved in accordance with the following provisions unless the dispute is one which is subject to a requirement in an insurance policy in force between the Canal Company and its insurer that gives such insurance company control over such issues:

- (a) Mediation. The parties shall designate a mediator and appear before the mediator and attempt to mediate a settlement of the dispute.
- (b) Arbitration. In the event the dispute between the parties cannot be settled as a result of mediation as above described, the dispute shall be arbitrated in accordance with the Uniform Arbitration Act, Title 7, Chapter 9, Idaho Code. The parties shall elect a mutually agreeable arbitrator and the dispute shall be submitted to that arbitrator for decision. The

arbitrator shall be authorized to enter a decision to resolve the dispute that is binding on the parties. The arbitrator's decision shall be non-appealable.

- (c) **Litigation.** Litigation is allowed between the parties only for the purpose of enforcing a settlement agreement entered into between the parties as a result of mediation, or an arbitrator's decision resulting from arbitration.
- (d) **Injunctive Relief.** Either party may request a Court to issue such temporary or interim relief (including temporary restraining orders and preliminary injunctions) as may be appropriate, either before or after mediation or arbitration is commenced. The temporary or interim relief shall remain in effect pending the outcome of the mediation or arbitration. No such request shall be a waiver of the right to submit any dispute to mediation or arbitration.
- (e) **Arbitration and Mediation Costs.** The parties shall share equally in all expenses and costs and fees of the mediator and arbitrator. Each party shall be responsible for its own costs, attorney fees and witness fees, if any. However, the arbitrator may award reasonable attorney fees to the prevailing party.
- (f) **Choice of Law.** This Agreement and the validity, interpretation and performance thereof shall be governed by and construed in accordance with the laws of the State of Idaho.

15 **Notices.** All notices required to be given pursuant to this Agreement shall be served upon the parties by certified mail, return receipt requested, at the following addresses:
