Dear Dave:

I received your mapping of the water rights on both the Hawker property and the Hanson Property. I am returning the signed transfer and I would like to have you proceed with the transfer of some of the water right from the hawker property so that we may utilize it on the Hanson property to complete the circle behind the Hanson home. I have sent a letter to George Hanson requesting the water right transfer that is still on the properties not being used. I will let you know when this is complete. George may call to go over this with you, any assistance you could give would be greatly appreciated. Thanks for all your help in this matter.

Sincerely

A handwritten signature in black ink, appearing to read 'M. Ferguson', with a long horizontal flourish extending to the right.

Michael Ferguson
