RE: Status of Transfers (9) filed 11/30/05

Dear Mr. Eisenman:

The purpose of this letter is to provide you with an updated status of your transfers filed in 2005. As you know, the Snake River Basin Adjudication (SRBA) has been in process for a number of years. Our Administration established the priority to complete this process during 2006. This priority has limited our office resources to process new water allocation and transfer applications since March 6th. Due to this, your transfer applications have not yet been processed.

Once the SRBA process has been completed this fall, our office will again return to normal operations. Permit and transfer applications will again be processed in order received. You will be notified when processing begins on your applications.

We realize this imposes an inconvenience for you, but ask your cooperation in helping us complete the SRBA process. A completed SRBA will enable our Department to better serve the regulation/management of our state water resources.

Should you have any questions, please contact me at the Western Regional Office, phone 334-2190.

Sincerely,

A handwritten signature in dark ink, appearing to read 'John Westra', is written over a horizontal line.

John Westra
Western Regional Manager
