RE: WATER RIGHT NUMBER 57-11612

We would like to change the point of diversion because we are planning to have our own well drilled on our property (Lot2 Block 2 in Eagle View Subdivison) in the near future and to be completed no later than 02/01/04. In the meantime we will be using water from the two community wells from the homeowners association #4.

Please see attached: Map; assignment, profile and note from Dan Nelson.

Sincerely,

Richard & Christina Wawock
