Re: Application for Amendment of Permit No. 57-11612

Dear Applicants:

You filed an application to amend the above referenced permit in May 2002. The proposed change was to allow your own domestic well instead of a shared well to be used for this permit. The application was processed without a final decision being issued by the Idaho Department of Water Resources (IDWR).

IDWR conducted a licensing field exam for your permit in August 2005. The changes proposed by the amendment application were not in place at that time. Your permit is being recommended for licensing to include the shared well for your irrigation use as found during the 2005 exam.

Statutory limitations prevent your proposed changes from being approved at this time. After you receive your water license, you may seek to change the license to include a second well and/or an alternate well by filing an Application for Transfer.

Meanwhile, your amendment application cannot be approved. Please withdraw your application by completing and returning the enclosed withdrawal form. The application will be voided without a withdrawal by April 6, 2007.

IDWR forms and other information are available on the Internet at www.idwr.idaho.gov. Please contact me at 208-334-2190 if you need more information. Thank you for your attention to these matters.

Sincerely,

Steve Lester
Water Rights Supervisor
