RE: Applications for Amendment of Permits (63-12461 & 63-12470)

Enclosed are two applications for amendment of water right permit. The applications for amendment seek to add all of the existing wells plus proposed Well No. 12 as points of diversion under the two water right permits that are currently being developed at our Twenty Mile South Farm. The applications also change the authorized places of use under the permits to conform with the places of use that have either already been developed, or are recommended to be developed by our Irrigation Water Supply Master Plan.

Enclosed is a check for \$100 (\$50 per application) for the application fee.

If you have any questions, please contact me at 384-3907 or redmond@cityofboise.org.

Sincerely,

Ron Redmond, P.E.
Assistant City Engineer
