Subject: New Union Transfer, Ulmer Lane Permit

Dear Steve,

Please find enclosed (1) an amended transfer application for the New Union Ditch Company and (2) an application for permit to appropriate ground water for the Ulmer Lane Townhomes development. A portion of the New Union Ditch Company transfer will serve as mitigation for the use of ground water under the proposed permit.

Also enclosed is a check in the amount of \$100 to cover the filing fee for the application for permit. My understanding is that fees for the New Union transfer application have already been paid.

In advance, thank you for your efforts in reviewing and processing these applications. Please call me if you have any questions.

Sincerely,

Christian R. Petrich, Ph.D., P.E.
Principal Engineer/Hydrologist
