

# MEMORANDUM

**Date:** August 06, 2007  
**To:** Transfer 73456  
**From:** kchriste  
**Re:** Evaluation of Sufficiency of Information Submitted

---

Transfer proposes adding a well to rights 36-13767 and 26-16200 that are for domestic and stock water use for a feedlot operation located approximately 6.0 miles west and 6.65 miles north of Paul. In addition, the transfer proposes redescribing the feedlot boundary to include an additional quarter/quarter joining the current place of use to the north.

· Authority to File:  
Applicants are listed as current owner of rights on IDWR records.

· Water Right Validity:  
Rights have been recently transferred to the current place of use.

· Injury to Other Water Rights:  
None anticipated. No change in diversion rate or volume is being requested. Three additional pens are being added with one pen extending just into the 40-acre tract to the north. The existing well and the new well are located in the same groundwater model cell.

· Enlargement of Use:  
None if appropriate conditions and limits are implemented.

· Local Public Interest:  
No negative impacts anticipated.

· Beneficial Use/Conservation of Water Resources:  
Proposed use of water is recognized, as beneficial use of water.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.
