Re: Ownership Change Received 5/11/06 – Deed Record #, Place of Use Shape

The county recorder information was not included on the warranty deed received with the change of ownership application from Scott and Angela Frost. I called the Elmore County recorder's office. Per the Carol in the assessor's office, the deed was recorded as #374091 (property in 5S 11E Sec8) and #374090 (property in 5S 11E Sec17).

Also, per the Adjudication claim review map, the place of use does not include land on the East side of the river.
