RE: Application for Permit 75-14417

Dear Mr. & Mrs. Rose:

While reviewing your application to prepare it for advertising, I noticed on your letter of answers to the questions in regards to Water Appropriation Rules 40.05, you stated you intend to use the water also for stockwater. You failed to put stockwater usage on line item #4, with the amount of use of stockwater and the season. You will need to amend your application to include stockwater. Don't forget to address the total on line item #5, will it change now that you have added the stockwater usage?

You will also need to add stockwater usage on the second page of your application under line item #9.

Please amend your application, initial changes and return to our office for processing.

If you have any questions regarding this, please feel free to contact me.

Sincerely,

Sharla Cox
Administrative Assistant
