Re: Evaluation Memorandum

This transfer proposes to resolve objection by BLM to SRBA recommendation by transferring 5.5 acres of the place of use off of land administered by the BLM to property owned by the applicant.

Authority to File:

IDWR records indicate the applicant is the owner of the right to be transferred, and the property to which the Place of Use will be transferred.

Water Right Validity:

This water right was recommended in the SRBA. Air photos from 2006 show it to be irrigated. Forfeiture is not an issue.

Injury to Other Water Rights:

The transferred water rights are contained within water district 74W. Watermaster will comment. Transfer will be advertised to determine any protests.

Enlargement of Use:

There is no evidence of enlargement of use.

Local Public Interest:

No issues identified.

Beneficial Use / Conservation of Water Resources:

No issue identified.

Review of the application finds there is not clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.
