RE: App For Transfer 73344

Dear Mr. Stoker;

I have completed the data entry for your pending transfer as we discussed. Our Boise office said that the land in Sec. 21 now leased by V & R Farms can be included in the proposed place of use with a proper explanation. While the standard development time for approved transfers is one year, up to five years can be granted. Will three years give you enough time to find an additional water right to cover this property? We need a copy of your deed for this ground, as our records show V & R to be the owner based on their previous transfer of water to the property.

I have printed out a corrected application for your review. Rather than send all 48 pages, just the pertinent ones are included. If the application is correct, please have all four applicants sign it before a notary; two signature pages are included in case you need them. The Part 3A shows what the points of diversion and place of use will be if the transfer is approved as requested.

Regards,

James E. Stanton
Sr. Water Resource Agent
