This transfer proposes to change the place of point of diversion from NWSWNW of 7S 35E Section 7 to an existing well at new POU located at NENESW Section 13 6S 34E. It is also changing the POU to the same QQ.

Authority to File:

Applicant is the owner of record as far as the SRBA decree. Land that the POU is going to is also owned by applicant as well as the place of use according to the Warrantee Deeds.

Water Right Validity:

Decreed 3/22/2004. Forfeiture not an issue.

Injury to Other Water Rights:

Not in a Water District. Both locations not in ESPA. New location in old model cell, but no information is in cell.

Transfer will be advertised to determine any protests.

Enlargement of Use:

There is no evidence of enlargement of use.

Local Public Interest:

No issues identified.

Beneficial Use / Conservation of Water Resources:

No issue identified.

Review of the application finds there is not clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.
